TWENTY YEARS OF

bathroom obsession

We understand bathrooms. A place of retreat and rejuvenation, a space in which to wash away those daily stresses and prepare for the new day ahead. That is why at Crosswater we make it our business to be experts on each and every element of bathroom design.

For 20 years we have been celebrated as the leading supplier of premium bathroom brassware. Throughout those two decades we have honed our expertise, perfected our designs and broadened our product offering - not to mention winning a few awards along the way - to bring you superior quality and unrivalled performance across every aspect of bathroom design. From basin mixers and bath fillers, to the latest thermostatic shower valves, a combination of time-honoured manufacturing techniques, quality materials and tried-and-tested components are brought together to offer a complete brassware range that proudly wears the Crosswater seal of approval.

By uniting our existing product ranges, we have now made it easier than ever to create a top-to-bottom solution that delivers on each element of bathroom function. Our brassware collection caters to the complexities of the water's flow, including a wide selection of showerheads, multifunctional valves and those luxurious additions that transform everyday

showering routines into an indulgent experience. Combine this with a premium selection of bath and basin taps, and those all-important finishing touches, and you are covered on all components that make up a truly exceptional bathroom solution.

At Crosswater, we readily embrace the latest cutting-edge manufacturing processes and design trends to provide showering designs that meet the discerning standards set by you, our loyal customers.

David Hance

David Hance, Group Executive Director

OUTSTANDING

style with quality

For style that goes hand-in-hand with the latest in brassware innovation, our extensive collection caters to all bathroom functions and aesthetics.

When it comes to quality, we never cut corners. Each product in the collection is designed to withstand the demands of daily bathing rituals, whether installed in a large family bathroom or luxury en-suite. As a result, strength and durability is key, and we can confidently say that you will experience nothing less from the Crosswater brassware collection.

All of our shower valves are manufactured using advanced thermostatic cartridge technology, working hard behind the scenes to offer you an exceptional showering experience. Team this with the very latest in multiple outlet showering, including dual outlet valves and innovative smart controls seen in our Digital and Dial ranges, and you have got everything you need to create a shower that is as inviting as it is functional. In fact, we are so confident in our products that we proudly offer a 15 Year Guarantee on the majority of our brassware ranges.

TAPS & MIXERS

style on tap

Contemporary and traditional designs for all. An extensive range of taps and mixers, offering a choice to complement all bathroom styles, sizes and user functions.

BELGRAVIA

*An outstanding, classically-designed
brassware collection.*

An exceptional range designed for those with a taste for tradition, Belgravia combines quality craftsmanship with a hand-polished finish to bring you the finest selection of basin and bath taps. Beautiful detailing seen in the ceramic handles and inscribed Belgravia indices set this collection apart, creating a bathroom that is period in style yet superior in function.

A refined collection for upholders of tradition

Introducing a touch of hotel-inspired luxury to bathrooms, the beautiful chrome surface of our traditional Belgravía brassware range is meticulously hand polished for a reflective, high-shine exterior. A handpicked selection of the designs is also offered in a lustrous nickel finish, perfect for adding an element of glamour to basins and baths. Both options are available with a choice of either crosshead or ceramic lever handles.

C - Chrome Lever (page 29) **D - Nickel Lever** (page 29)

Complete the look with Belgravia accessories

Maintain a sense of tradition with our range of bathroom accessories, crafted to complement the Belgravia brassware collection. Featuring the design's signature styling, with ceramic accents and authentic period detailing, choose from a refined selection of bath, basin and suite accessories that includes soap dispensers, robe hooks and a choice of towel rails. Crafted from chrome-plated brass, Belgravia accessories will introduce the elegance of a bygone era to complete the look of your bathroom.

BELGRAVIA

• EXPOSED VALVES •

finish options CHROME OR NICKEL?

Adding a touch of hotel-inspired luxury to shower rooms, our traditional Belgravia brassware collection is available in two exquisite finishes of polished Chrome and warm Nickel, reflecting the classic styling seen in period bathrooms.

Authentic detailing for advocates of traditional design

Creating a traditional look in the bathroom should not mean compromising on function. Our Belgravia exposed shower valve features the design's distinctive period styling, combined with an advanced thermostatic Vernet cartridge that offers complete water control. The choice of a single or dual outlet valve allows for flexible showering whereby additional handsets can be incorporated into your showering brassware setup, easily operated by a smooth diverter. Tailored to your preferences, the Belgravia exposed valve can be teamed with a choice of shower head sizes, three handsets holder options, and is available in both exquisite finishes of Chrome and Nickel.

MPRO

The established choice for high-quality bathrooms, MPRO delivers the very best in brassware engineering. Combining superb function and precision design, the result is a complete collection of bathroom mixers, valves, and shower heads that meets the exacting demand of today's modern bathroom.

Two new finishes join the MPRO collection, Brushed Brass and Matt Black alongside the introduction of a stunning knurled detail, creating a bathroom that is as beautifully crafted as it is designed. All four exquisite finishes are offered across the entire MPRO collection, including a complete set of coordinating accessories.

The finest components and materials ensure that MPRO delivers on flow performance and, as importantly, safety and water efficiency with WRAS and TMV2 certification.

DIAL

INTUITIVE VALVES WITH SMOOTH FUNCTIONALITY

Dial is the latest in push-button shower technology that enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it is smart on the inside using pioneering flow control technology. Available in both single and double outlet options.

See pages 258-283 for more information on Dial

water control DOUBLE CHECK VALVES

This innovative multi-outlet valve is probably the first concealed model to feature an integrated double check valve (DCV), which is designed to protect water supplies from contamination and back fill. Bath overflow fillers require a double check valve so this clever advancement in valve technology gives the very best in showering and modern bath filling, which also reduces installation costs and time.

This pioneering product operates 3 outlets from a single diverter instead of two. It can operate a bath filler with an overhead shower and handset, or a three-shower outlet such as a wall handset and a dual functioning overhead shower, for an invigorating experience.

SHOWERING

the art of water

From valves and shower heads, to multifunction kits, our complete range of in-shower brassware offers everything you need to create a luxurious showering experience.

all you need for the perfect shower

1

SHOWER HEADS *page 186*

From luxury rainfall and waterfall, to spa-inspired illuminated styles, a shower head is the defining feature of any showering experience. Once you have considered which water flow you require, you can decide on the style and fitting options.

- Luxury shower heads
- Recessed shower heads
- Illuminated shower heads
- Waterfall shower heads
- Fixed shower heads
- Shower arms

2

SHOWER KITS *page 216*

For a practical alternative to a fixed head, opt for a high-performance shower kit. This simple and effective option is ideal for installing in any shower or bath setting. Cleverly designed, they also include a versatile riser rail.

- Single spray shower kits
- Multi spray shower kits
- Premium shower kits

3

SHOWER EXTRAS *page 232*

Once you've decided on your shower head, it's time to think about any additional outlets you might require. From spa-style body jets, to handsets and hoses, our extensive range of brassware accessories will transform everyday showering into a luxurious experience.

- Shower handsets
- Shower hoses
- Wall outlets
- Body jets

4

SHOWER VALVES *page 240*

Working hard behind the scenes, getting the correct valve is essential for controlling your chosen water outlets. Whatever your preference, all our designs use the latest thermostatic technology to meet exacting British plumbing standards.

- Digital valves
- Dial push-button valves
- Recessed valves
- Multifunction valves
- Exposed thermostatic valves

selecting your shower head

If you've a penchant for contemporary aesthetics or lean more towards traditional styles, there's an array of sophisticated designs, sizes and functions to inspire you. All are intuitively manufactured to ensure a superior showering experience with each and every use.

size matters

COMPACT OR LARGE

A smaller head diameter enables a more concentrated spray pattern, whereas a wider, larger head provides a more dispersed flow of water. Whichever option you choose, or for a combination of the two, there is a shower head to suit your needs. Featuring designs that encompass intelligent water distribution, you can tailor your showering solutions to exact performance capabilities and preferences. Whether you favour a powerful and invigorating shower, or an indulgent and relaxing experience, sizes span from 150mm to 600mm in diameter to ensure there is a dimension to individually suit you.

led fixed heads

SHOWERING WITH A DIFFERENCE

Our innovative range of illuminated shower heads will transform daily washing routines into the ultimate spa experience. Featuring integrated LED lights, users can choose from multiple colours or a stunning rotational spectrum to create an in-shower light show that is guaranteed to soothe and relax.

Low-consumption LED bulbs ensure an efficient use of energy when powering our illuminated heads. The entire colour spectrum of our FHX, Rio and Mini Revive designs can be controlled by a handy waterproof remote, as well as any optional water flow functions. Up to 10 year guarantee.

Illuminated shower heads page 196.

sleek & streamlined

RECESSED HEADS FOR THE MODERN SHOWER ROOM

Ideal for low ceilings or those who seek a minimal look, recessed shower heads fit flush to an overhead surface. Choose from a range of round and square designs.

Recessed shower heads page 194.

a wide range of styles

MODERN & TRADITIONAL SHOWER HEAD DESIGNS

We understand showering needs vary, so within our collection you will find shower head sizes ranging from 150mm to 600mm in diameter. From a deluge of water that cascades from overhead designs, and spa-inspired options, to practical single mode heads, we can help create your dream shower.

Whether you are opting for a ceiling or wall-mounted shower head, you'll need to consider those additional extras. Our range of shower arms will help to affix your chosen style, ensuring it is securely mounted and ready for use.

Fixed shower heads page 200.

Shower arms page 212.

multiple water flow

THE BEST IN LUXURY SHOWERING

Create the ultimate shower experience with multiple water flows, available across a selection of our fixed heads. For statement style, choose from innovative wall-mounted styles that feature a combination of water flows including cascading, gentle rainfall, and invigorating spray jets. These can be operating individually or at the same time for a luxurious effect.

Luxury shower heads page 188.

Luxury shower heads

*Step into luxury with our superior collection of statement shower heads.
Choose from a wide range of styles, finishes and outlet options.*

Svelte

Combining sophisticated style and innovative function, the Svelte shower head embraces luxury bathroom elegance. Featuring multiple water flow channels, including rain, waterfall and refreshing spinning jets, the statement design offers a sensational showering experience.

Svelte Multifunction
FH2100C £1749.00

w 270 x d 593mm

Must be used in conjunction with a 3 outlet valve, see page 298.

- HP3
- 20.5mm head thickness
- 3 mode - rain, waterfall & spinning jets
- Brass
- Chrome
- 10 Year Guarantee
- Wipe clean nozzles

Zion

The ultimate showering statement, Zion is the latest design in our range of contemporary shower heads. Offering a luxurious and drenching water flow, the slim-line silhouette allows for installation in the narrowest of enclosures.

Zion
FH1000C £189.00

w 60 x d 435mm
Must be used in conjunction with a single outlet valve, see page 294.

Revive

An innovative choice with multiple water flow channels, Revive is perfect for those in pursuit of a flexible showering experience. Sleek and streamlined with delicately rounded edges, Revive lets you switch between its waterfall and rainfall shower functions, which can also be operated simultaneously.

Revive overhead shower with waterfall feature
FH2000C £629.00

w 270 x d 598mm
Must be used in conjunction with a 2 outlet valve, see page 294.

Glide

With its ultra thin design and minimalist silhouette, Glide lends a touch of understated style to contemporary shower room schemes. For the ultimate feel-good factor, the dramatic and revitalising rain water flow turns daily shower routines into a luxurious experience.

Glide Rectangle 500mm
FH552SR+ £689.00

w 250 x d 500 x h 24mm

Must be used in conjunction with a single outlet valve, see page 294.

Full water flow

Elite

Super slim and modern in style, transform your shower with Elite; a superior design offering a choice of three Multifunctional spray settings that allow you to create a unique experience with every use. Each water flow channel has its own water supply, which means Elite can also conserve water when switched to a reduced flow setting.

Elite overhead shower with waterfall feature
FH2000UC £629.00

w 235 x d 593 x h 16.5mm

Must be used in conjunction with a 2 outlet valve, see page 294.

Front water flow

Central water flow

Full water flow

Recessed shower heads

The ideal choice for enclosures with a lower head height, our recessed shower heads fit flush to the ceiling for a sleek and unobtrusive look.

Square Recessed 380mm
FH380C £949.00

w 380 x d 380mm

A 1000 recessed shower valve is ideal for the recessed head. If you require a separate handset, choose a 1500 valve, see page 298.

380

Round Recessed 280mm
FH280C £729.00

Ø280mm

A 1000 recessed shower valve is ideal for the recessed head. If you require a separate handset, choose a 1500 valve, see page 298.

280

Square Multifunction Recessed 500mm
FH500C £1849.00

w 500 x d 500mm

Must be used in conjunction with 3000/3001 valve, see page 298.

500

Illuminated shower heads

Our innovative range of illuminated shower heads will transform daily cleansing routines into the ultimate spa experience. LED bulbs and multiple colour spectrums create an in-shower light show that is guaranteed to sooth and relax.

Rio

Illuminate your shower with a choice of white or blue light to achieve a spectacular visual effect. The low-consumption LED lamps create a column of water and light with a diameter of 240mm that operates perfectly with 3-bar pressure.

Rio White circular
FHX720C £1999.00

Ø240mm

A 1000 recessed shower valve is ideal for the Rio head. If you require a separate handset, choose a 1500 valve, see page 294.

Requires mains power - products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations.

Supplied with ceiling arm

Dynamo

Elegantly illuminated, the Dynamo shower head sets the precedent for luxury showering with its ambient light beams. Extraordinarily, Dynamo's LED bulbs are powered by the water's flow, and therefore do not require electricity to function.

Dynamo
DYNAMOSHOWER £1379.00

Ø300mm
A 1000 recessed shower valve is ideal for the Dynamo head.
If you require a separate handset, choose a 1500 valve, see page 294.
White LEDs

No mains electrical power required

Supplied with ceiling arm (must only be used with one provided)

Mono colour mode options
Panoramic colour mode

Mini Revive

Illuminate your shower with a choice of coloured lights to achieve a spectacular visual effect. Mini Revive also has two spray functions available: rain or mist. The low-consumption LED lamps create a truly magnificent column of water and light.

Mini Revive
FHX310C £1375.00

w 300 x d 200mm
A 2000 recessed shower valve is ideal for the Mini Revive head to allow for both central and front water flows to function concurrently and apart. Use a 3000 valve if you require a separate handset, see page 232.
Requires mains power - products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations.

remote control

The waterproof remote control features a chromotherapy system with a stunning choice of colours. If you'd like to position the remote control on the wall, a supportive bracket is supplied to safely house the control. Batteries are supplied as standard.

Fixed shower heads

easy fit HASSLE FREE INSTALLATION

Our in-shower body jets come complete with easy fit in-wall boxes to ensure that installation is simple and fuss free.

choosing a valve

If you are teaming your body jets with other items such as a shower head or handset, you will need to use a 2, 3 or 4-way diverter valve, which allows you to control multiple outlets with ease.

See pages 294-299 for more information.

Shower kits

Our high-performance shower kits are a simple and effective option for installing a premium shower head in any shower or bath. Cleverly designed, they also include a versatile riser rail.

ideal for FAMILY BATHROOMS

Ideal for families where there are variances in height, the riser kits adjust the shower head to individual heights and angles. The riser is friction free so it can effortlessly glide vertically for anyone that regularly uses the shower. A stunning bathroom feature, the polished chrome finish is also simple to clean and maintain.

how to choose shower valves

Choose from efficient, multi-outlet valves or simple yet functional single outlet options. Whichever your preference, all designs are expertly engineered to suit British plumbing systems.

technology for your bathroom DIGITAL SHOWERING

Transforming everyday bathing into an extraordinary experience, Digital is a highly responsive valve system that allows you to precisely control the flow and temperature of the water at the touch of a button. Combining advanced electronic technology alongside design excellence, Digital sets the benchmark in bathroom automation. An optional wall-mounted remote control is also available, which can be positioned up to 10m away from the Digital processor. This handy add-on allows users to operate the shower or bath before even entering the room.

Digital valves pages 244-257.

push-button technology DIAL VALVES

Innovation from Crosswater, Dial is the latest in push-button shower technology, which allows you to precisely control the flow of water and temperature simultaneously. Available in both single and double outlet options, and available in four distinctive designs, Dial's cutting-edge on/off operation allows for the temperature and water flow to be set at the touch of a button. This innovation is ideal for Multifunctional showering and bathing, whereby outlets can be used both independently and in-sync with a superior effect to that of standard diverters.

Dial valves pages 258-283.

crosswater
DIAL

for a minimal look RECESSED VALVES

Offering an extensive range of horizontal and vertical recessed valves, the collection remains unsurpassed in choice and quality. Using thermostatic valve technology, you can be assured they are safe and easy to operate.

Our recessed valves are ideal for use with fixed shower heads, body jets or shower kits with wall outlet, with a wide choice of head options designed to match your brassware. The stylish chrome-plated face plates easily fit over uneven or bumpy tiled surfaces to create an efficient and streamlined look.

Recessed valves pages 284-299.

all in one showering MULTIFUNCTIONAL VALVES

Simple to install, Multifunctional valves offer a practical overhead showering experience that incorporates a versatile handset for hair washing or for smaller children to use.

Designed with families in mind, our valves feature a built-in safety stop at 40°C with manual override to ensure a safer showering experience at home. The ceramic disc control enables smoother operation and quick transfer from hand set to overhead shower, another function that is perfect for busy family bathrooms.

Multifunction valves pages 300-303.

perfect for shower kits EXPOSED VALVES

Featuring precisely controlled water temperature levels and immediate response to changes in water flow, these valves are ideal for the family.

Simple to install, our exposed valves are available in both timeless round or contemporary square designs ensuring there is an option to suit your bathroom.

The fail-safe thermostatic control maintains the selected temperature to within 1.5°C degrees either side, whilst the temperature control also has a built-in safety stop at 40°C.

Exposed valves pages 310-311.

Precision technology

THE PERFORMANCE 'HEART' OF THE VALVE

'Vernet CA43' is the world's leading thermostatic cartridge due to its advanced technology in smooth and precise temperature control.

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another or turn off the water to shampoo your hair, the thermostat will automatically find the exact same pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate showering experience.

quality comes from within

Endurance, quality, efficiency and safety are at the core of every Crosswater thermostatic shower valve.

reliability

FIVE YEAR GUARANTEE

The key element of the valve technology is the ingenious 'thermo-brain' feature. The high-quality materials used for this thermo-brain greatly minimise the potential for limescale settling on working parts, which extends the lifetime and performance of the valve. The life span is a minimum of 50,000 cycles, which equates to a family of four showering twice per day for up to 17 years! (Dependent upon water quality and delivery conditions).

By installing a Crosswater thermostatic shower valve you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater thermostatic shower valve will pay for itself over a short period of time.

WITH COMPLETE CONFIDENCE IN THIS TECHNOLOGY, OUR THERMOSTATIC CARTRIDGE COMES WITH A FIVE-YEAR GUARANTEE

durability

QUALITY CERAMIC DISC CARTRIDGE

The basis for all high quality shower valves is the performance of the internal turning parts - even after it has been used thousands of times. All Crosswater thermostatic shower valves use Flühs ceramic disc technology - the world's leading innovator, producer and supplier of water supply products.

Each valve is marked with a Flühs symbol as a sign of quality and compliance.

Silky smooth operation and precise water control are characteristic of Flühs products. All raw materials are highly resistant to acid and alkali solutions in the bathroom (soap, shampoo, etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

safety

PRECISION IN TEMPERATURE & WATER FLOW CONTROL

Once you have selected your preferred water temperature it will remain unchanging for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Vernet cartridge has precise temperature control and automatic shutdown should a cold water failure occur, and the anti-scald function is individually checked on each cartridge prior to leaving the factory to give you peace of mind.

In accordance with British Standard NHS D08, the Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer

valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a WC is flushed, the cartridge ensures that the temperature is maintained within 1°C below/above the set temperature.

Vernet cartridges are designed and produced to fully conform to the requirements of TMV2 and 3, thus providing users of all ages with the peace of mind that water flow and temperature are consistently provided.

quality

MARK OF APPROVAL

A simple way to check you have a genuine Crosswater approved valve is to look for the conformity code that's marked to ensure its compliance with TMV2.

Approved to TMV2

crosswater[®]
DIGITAL

technology for your bathroom

Wonderfully clever and yet beautifully simple, the Crosswater Digital shower valve gives you complete control over your water flow.

*easy to use
& install*

Intuitive and easy to use and install in any bathroom

*precision
every time*

Perfect temperature and flow every time you use

*remote
control*

Convenient, optional remote to control and divert flow

*safety
first*

Engineered to be safe for all the family

precise temperature

Find the perfect temperature with precise and sophisticated controls. A built-in thermistor checks every 10th of a second to ensure the water stays as close as possible to the set temperature.

cool-touch metal controls

Shower controls are kept completely separate from the water in the valve, which means they always stay cool and safe to touch.

colour-changing controls

When you switch Digital on, the controls flash white as the water heats up to the set temperature. If you adjust the temperature, the LEDs flash red to let you know when the water is warming up and blue when it's cooling down. As soon as the desired temperature is reached, the controls stop flashing and glow white.

easy divert

Divert the flow quickly and easily between outlets with just a few touches. Press the lower control once to divert from the main shower head to the second, and again to run both at once. In a shower / bath, one touch switches from bath filler to the shower head.

installation

Save time and money. Push-fit isolation valves and a standard electrical plug fitting, as well as easy to set up cable connections, make the shower extremely simple to install.

cleaning mode

Activate to clean the controls without accidentally turning on your shower. Simply press and hold the power button to enable cleaning mode, which lasts for 1 minute.

Digital features

The premium control features of the Crosswater Digital shower make it simpler, more innovative, and safer to use than conventional shower valves.

choose your style

MODERN OR TRADITIONAL?

Choose from three different trim styles combined with one of our numerous shower kits to create your ideal look.

Belgravia Lever page 252.

Digital packs pages 254-257.

optional remote

THE ULTIMATE
CONVENIENCE

Fit an additional remote control anywhere outside of the shower and within 10m of the Digital processor. The remote can be used to turn the shower or bath fill on and off, or to divert between shower heads.

showering simplicity

PRECISE CONTROLS

Turn on the water by gently pressing the control dial, and watch the controls flash white as the shower heats up. When the controls stop flashing and begin to glow, the water's just how you like it – so step in and enjoy.

Our single outlet processor controls one shower head, with a simple handle to adjust the temperature. Alternatively, the single outlet processor can be combined with our bath filler, allowing you to use the same precise controls to fill your bathtub.

The dual outlet processor controls two shower heads. Press the lower handle once to divert from the main outlet to the second shower head, and a second time to run both at once.

The dual outlet bath / shower processor is used for a combined bath and shower. When you turn it on, the water will automatically flow from the bath outlet – just press once to divert to the shower head.

temperature control

SAFETY FIRST AND
ALWAYS

No need to worry about fluctuating temperatures or surges of hot or cold water. Our Digital shower closely monitors the temperature to ensure it stays exactly as set – even if someone is using water elsewhere in the house.

If you adjust the temperature, the unique colour-changing controls will flash red as the water heats up, then blue while it is cooling down. Once it reaches your desired temperature the controls glow white to let you know it's ready. And if there is a problem with your water or power supply, the flow will shut off completely.

MPRO

Refined and understated, MPRO is perfect for contemporary bathrooms. Match it with any of our modern shower kits to complete your shower.

DIAL

Push-button valve technology

Dial Central 262

Dial Kai Lever 270

Dial Pier 278

push-button technology

Dial enables you to precisely control the flow of the water as well as the temperature for total control over your bathing and showering experience. This innovation not only looks smart with four designs, it's smart on the inside using pioneering flow control technology and is available in both single and double outlet options.

Push the top dial once to start/stop water flow

Turn to increase/reduce the water flow

Turn the middle dial to adjust the temperature

Push the bottom dial to start/stop water flow of an additional outlet

Dial Central

Contemporary style combined with supreme, flexible performance, Dial Central features curvaceous contours for a chic look.

1000 Thermostatic valve

The best flow and temperature for a single fixed shower head or shower rail using a wall outlet.

- Single outlet valve
- Water pressure: Single outlet works from 0.2 bar upwards
- Panel dimension w 120 x h 215mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Ceramic disc control for smooth action and no drips
- Temperature and water flow controlled independently
- Suitable for all hot water systems, including gravity fed (0.2 bar minimum) and high pressure (5.0 bar maximum)
- Temperature control mechanism has a temperature limit stop which can be preset at any temperature
- Temperature handle has a built-in safety stop at 42°C with an automatic safety shutdown should the hot or cold water supply fail

1500/1501 Thermostatic valve

The market's favoured two outlet valves. Ideal for a fixed head and shower rail, or shower head and bath filler.

- 2 outlet valve with diverter to switch between two different shower or bath functions
- Water pressure: HP1, 1 bar
- Panel dimension w 120 x h 215mm / w 215 x h 120mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Ceramic disc control for smooth action and no drips
- Portrait (1500 - shown above) / landscape (1501 - shown below)
- Only 75mm wall depth required

1600 Thermostatic valve

This modern, Multifunctional design allows you to switch effortlessly from bath filling to overhead or wall mounted shower.

- Bath spout with integrated diverter for overhead or wall mounted shower
- Water pressure: HP1, 1 bar
- Panel dimension w 120 x h 275mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Ceramic disc control for smooth action and no drips

1701 Thermostatic valve

A fully integrated two outlet valve that can operate bath filling with a handset or double showering with an overhead shower and handset.

- Two outlet valve with diverter. Choose bath and shower or two shower outlets
- Water pressure: HP1, 1 bar
- Panel dimension w 275 x h 120mm
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Choice of styles
- Ceramic disc control for smooth action and no drips
- Landscape only

2000/2001 Thermostatic valve

This classic valve features three flow controls and allows you to use two outlets separately or at the same time.

- 2 outlet valve with diverter to switch between two different shower or bath functions
- Water pressure: Works from 0.5 bar upwards
- Panel dimension w 120 x h 275mm / w 275 x h 120mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Ceramic disc control for smooth action and no drips
- Portrait (2000 - shown above) / landscape (2001 - shown below)
- Only 75mm wall depth required
- Perfect for Glide and Revive overhead showers

2500 Thermostatic valve

Probably the first concealed multi-outlet valve to feature an integral double check valve, negating the need to fit a separate DCV in the plumbing system - saving fitting time and cost. This innovative advancement in valve technology makes the 2500 model the very best valve to install with a bath overflow filler that requires a DCV, with overhead and hand shower fixtures.

- 3 outlet valve with single diverter to switch between three different shower or bath functions
- Water pressure: HP1, 1 bar
- Panel dimension w 120 x h 215mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Available in a choice of styles
- Ceramic disc control for smooth action and no drips
- Portrait only

Perfect for Glide and Revive overhead showers

2701 Thermostatic valve

The classic shower valve now with integrated shower handset and holder. Allows you to use two outlets separately or at the same time. Operate a bath with a shower or with two shower outlets.

- 2 outlet valve with individual flow control for bath and shower or two shower outlets
- Water pressure 0.5 bar upwards
- Panel dimension w 342mm x h 66mm
- 100% solid brass construction & trim set
- Fully serviceable from the front
- Available in a choice of styles
- Ceramic disc control for smooth action and no drips
- Landscape only
- Integrated shower handset

3701 Thermostatic valve

Our high performance two control valve with three-way diverter, now including an integrated shower handset and holder. It runs a single shower or bath outlet or for premium showering switch to run two outlets at once.

- Three outlet valve with diverter to switch between 2 different outlets or different shower or bath functions
- Water pressure HP1, 1 bar upwards
- Panel dimension w 342mm x h 66mm
- 100% solid brass construction & trim set
- Fully serviceable from the front
- Available in a choice of styles
- Ceramic disc control for smooth action and no drips
- Landscape only
- Integrated shower handset

3000/3001 Thermostatic valve

A high performance two control valve with a three-way diverter. It runs a single shower or bath outlet or for premium showering, switch to run two outlets at once. The perfect option for a bath with overhead shower and handset or a luxurious dual shower set up.

- Three outlet valve with diverter to switch between 2 separate outlets or different shower or bath functions
- Water pressure: HP1, 1 bar
- Panel dimension w 120 x h 275mm / w 275 x h 120mm
- WRAS Approved to TMV2
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Ceramic disc control for smooth action and no drips
- Portrait (3000 - shown above) / landscape (3001 - shown below)

Perfect for Glide and Revive overhead showers

10 Mini thermostatic valve

One of the smallest thermostatic valves presented, its neat and discreet design continues to deliver prestigious showering performance. 10 Mini has been designed to work smoothly with a single overhead shower or a shower kit with a wall outlet.

- Independent temperature and flow control
- Water pressure: HP1, 1 bar
- 100% solid brass construction
- Fully serviceable from the front
- Available in a choice of styles
- Ceramic disc control for smooth action and no drips
- Only 45mm wall depth required

0004 Manual valve

The most economical way to introduce a shower outlet over a bath, the 0004 manual valve is extremely versatile and simple to install with an overhead shower or shower kit.

- Simple lever operation for flow and temperature
- Water pressure: HP1, 1 bar
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Ceramic disc control for smooth action and no drips

Non-thermostatic

0005 Manual valve with diverter

The ideal solution for those updating their shower and bath on a budget, this sleek valve with a high performance diverter doesn't compromise on style or function. Operate a bath with shower or a showering area with two outlets.

- Simple lever operation for flow and temperature
- Water pressure: HP1, 1 bar
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Ceramic disc control for smooth action and no drips

Non-thermostatic

Multifunction shower valves

The all-in-one complete showering experience, Multifunctional valves offer a host of fabulously advanced design features and incorporate a versatile handset, overhead shower and valve in one single product.

General features

- Fail-safe thermostatic control, maintaining selected temperature to within $\pm 1.5^{\circ}\text{C}$
- Water pressure: 1 bar minimum
- Integral shower head and handsets
- Smooth height adjustable directional hand sets
- Ceramic disc control for smoother operation
- Quick transfer of water from hand set to overhead shower
- Automatic safety shutdown should the hot or cold water supply fail
- Flow control with integral diverter
- Temperature control has a built-in safety stop at 38°C with manual override for a safer shower
- Water Save button reduces water consumption, with manual override
- Simple to install
- 15 year guarantee
- Optional Neoperl® flow regulators to limit shower output to 8/6 litres per minute

Shower head features

- Ball joint adjustable angle fixed head
- Smooth slide up and down hand set
- Intelligent water distribution
- Full height handset adjustment
- 1500mm hose
- Grey or chrome faced head
- Wipe clean nozzles

Features shown above are generic and may not apply to all Crosswater Multifunction Valves, please check product details for specific information.

Traditional exposed valves

Team your Belgravia bath and basin brassware with a matching exposed shower valve.

multiple water flow OUTLET VALVE OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

finish options CHROME OR NICKEL?

Adding a touch of hotel-inspired luxury to shower rooms, our traditional Belgravia brassware collection is available in two exquisite finishes of polished Chrome and warm Nickel, reflecting the classic styling seen in period bathrooms.

design to suit you SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head or a 12" luxury fixed head.

Exposed valves

Sleek in style and superior in performance, Crosswater's exposed thermostatic shower mixers are simple to operate and look great in any bathroom. Supplied as standard with built-in safety controls, we have developed an easy-to-use installation kit for convenient fitting.

Perfect for use with any Crosswater shower kit

Solid brass construction

¾" outlet and inlet

Suitable for all hot water supply systems from 0.5 bar pressure

Separate flow and temperature controls

Facility to set your preferred temperature and leave for the next time you use valve

Ceramic disc control for smooth turning action and no drips

Temperature handle has a built-in safety stop at 38°C with manual override button

Complete with wall unions for installation

15 year guarantee

Optional Neoperl® flow regulators to limit shower output to 8/6 litres per minute

Multifunctional valves can be quickly and easily installed with all water-running elements mounted on the wall exterior to free up valuable basin top space and allow the valves to be maintained or upgraded with ease.

how to choose a kitchen tap

Blending innovative design with the quality Crosswater trademark, the Cucina kitchen brassware range has a solution to suit all tastes and functions.

comprehensive range

TAP STYLES FOR ALL PURPOSES

The Cucina collection offers a tap to suit all kitchen styles and user requirements. Choose from traditional designs such as the classic Belgravia Crosshead taps, perfect for teaming with period-style cabinetry and fittings, or for those with a penchant for minimalist décor and professional functions, opt for the Cook range with handy pull-out sprays and sensor technology.

smart finish

CHROME OR BRUSHED STAINLESS STEEL EFFECT

Cucina offers a great choice of finishes to match not only your kitchen's theme, but also your own personal style. From shiny chrome plated brass to smart, brushed stainless Steel effect on brass finishes; your kitchen brassware can be aesthetically pleasing as well as fully functional.

functionality

PULL OUT SPRAYS

Looking for more from your kitchen tap? Our modish Pull out sprays with a handy hose function are ideal for those in need of a practical solution that does not compromise on style. Complete with removable tap heads at the end of hoses for added flexibility; get the most out of your kitchen tap with this useful design feature.

flexibility

SWIVEL SPOUTS

For maximum utility in the centre-of-action area of the kitchen, Crosswater offers a comprehensive range of taps with a smart and smooth swivel feature in all of its single-spout designs.

Cook

For the professional; a multifunctional option perfect for rinsing and washing. Three different designs make up this stylish yet practical collection, complete with useful features such as flexi and dual function sprays.

clever, hygienic and safe SWIVEL SPOUTS

This chrome kitchen mixer with on/off sensor is the latest addition to the stylish Cucina Kitchen range. A single mixer handle with elegant swan neck design, high spout for easy filling of large saucepans plus the smart on/off sensor enabling hands-free operation. Perfect for situations where you need to wash your hands but might not want to contaminate the mixer handle - for example when preparing chicken.

Saves energy by not activating hot water systems for short bursts. Safe as it prevents an instant rush of hot water. Great for rinsing your fruit and vegetables.

Please note: Battery operated (4 x AA batteries so no electrician required). The sensor only controls the cold water feed meaning you cannot get hot water via the sensor mechanism.

Svelte

Combining smooth curves with a graceful silhouette, the Svelte tap is perfect for those looking to add that final touch of elegance to their kitchen.

Why visit your local bathroom specialist?

We believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?....

1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

3 Test drive showroom display products

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

4

AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

2 Design consultations

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

5 They are nearer than you think!

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, MPRO and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

Find your local bathroom specialist at:
[crosswater.co.uk](https://www.crosswater.co.uk)

PRODUCT QUALITY

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

understanding your water system

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

WHAT IS WATER PRESSURE?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

IDENTIFYING YOUR WATER PRESSURE RATING

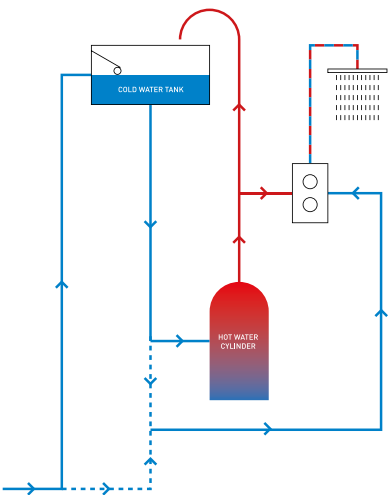

By identifying your home's plumbing system you can select a product that best suits your water pressure.

WHY IS THIS IMPORTANT?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar	HP2	minimum 2 bar
MP	minimum 0.5 bar	HP3	minimum 3 bar
HP1	minimum 1 bar	HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

HOT GRAVITY & COLD GRAVITY/MAINS

Low pressure systems (LP min 0.2 bar)

- ✓ You have a cold water storage tank in the loft.
- ✓ You have a hot water cylinder.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (min 0.2 bar).

Note A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

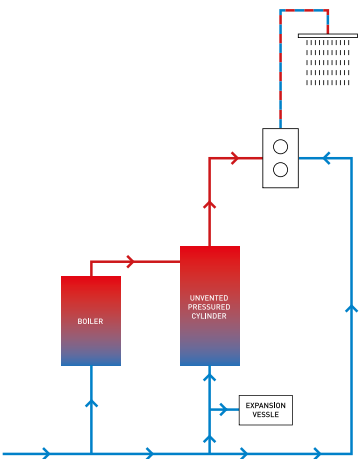

COMBINATION BOILER

Medium pressure systems (MP 0.5-1 bar)

- ✓ You have a combination boiler that heats water on demand.
- ✓ You do not have any storage tanks.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

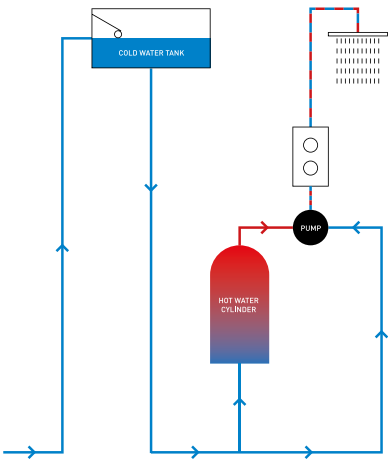

MAINS HIGH PRESSURE

High pressure systems (HP1/2/3/2-3 bar)

- ✓ You have an unvented cylinder with an expansion cylinder.
- ✓ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

PUMP ASSISTED

High pressure systems (MP to HP4)

- ✓ You have a booster pump fitted.

Where a gravity flow of water is in excess of 0.6lpm, this is known as a 'Positive Head' condition (e.g. when your shower head is positioned lower than your cold water storage tank). In this situation, a positive shower pump can be used. A 'Negative Head' condition is when the gravity flow of water is less than 0.6lpm (e.g. when your shower head is positioned above the cold water tank level). In these conditions, a negative head pump must be used.

Negative shower pumps will work in both positive and negative head conditions. So for example, in a situation where there is a shower head above and below the water tank level; one negative shower pump can be used for both.

With the right pump, you can choose any of our products.

water saving REGULATORS

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day. You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

Terms & conditions

Prices

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

Delivery

Orders in excess of £5000 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £5000 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

Returned Goods

Requests to return goods must be made in writing to Returns.

Department@crosswater.co.uk and include the product details, purchase order number and reason for return. Requests for items that are damaged externally or missing items must be received within 30 days.

Requests for items not required with packaging in pristine condition must be received within 45 days and will be subject to a 12.5% re-stocking charge.

Requests for items not required with packaging in poor conditions must be received within 45 days and will be subject to a 12.5% re-stocking charge and an additional 12.5% re-packing charge. Requests for items that have internal product damage must be received within 30 days.

Special orders are non returnable. Collection will only be made from point of delivery.

Damaged will not be collected once they have been sent to a third party.

Retention of Title

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

Liability

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

Errors & Omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Cleaning & Maintenance

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

Cucina Mixers

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

Cucina Sinks

- Clean regularly with hot soapy water and a soft Micro fibre cloth (e.g. E-cloth).
- A good quality lime scale remover such as Viakal or a 50% mix of water and white vinegar can be used to remove lime scale deposits, ensure to rinse thoroughly after use, do not leave the vinegar in contact with the surface.
- A nylon scratch pad or toothbrush can be used with a compound like "Bar Keepers Friend" to remove more stubborn stains.
- Always clean the sink with an anti-bacterial cleaner and rinse with hot water after cleaning or preparing foodstuffs.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

15 Year Guarantee*

All Crosswater brassware and shower valve products, unless otherwise stated, carry a 15 year guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning or consumable goods. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

*With the exception of cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses which are all guaranteed for 1 year.

Cucina Sinks

Each sink is manufactured to comply with EN 13310:2005

Product Compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

Water Pressure (recommendations)

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

-  Thermostatic shower valve that offers two independent functions from a single valve.
-  Thermostatic shower valve that offers three independent functions from a single valve.
