ESSENTIALS

Your new bathroom starts here.

The Crosswater brand goes hand-in-hand with quality bathroom design. Our Essentials collection continues this strong tradition, offering a comprehensive range of bath and shower room solutions at astonishingly good prices without ever compromising on quality.

Inspiring and improving your daily bathing routines, we deliver outstanding performance in a modern and style-conscious way. Through smarter product design and efficient manufacturing processes, Crosswater Essentials brings you a collection of brassware, furniture, showering solutions and sanitaryware that caters to every aspect of bathroom design and function.

The Essentials collection conforms to and exceeds required British and European quality, performance, safety, sustainability and water-saving regulations. This dedication and confidence ensures that you can enjoy a genuine Crosswater experience, even on a budget.

// Get the complete bathroom look

At Crosswater, we take great care of all the little details so you do not have to. Essentials is a collection designed to work with you; a complete product offering that makes choosing your bathroom fittings simple.

Providing affordable designs that meet the requirements of our customers is key. Combine that with the latest developments in bathroom function and you have got the Essentials range. No compromises are made in the quality and usability of any product in the collection, so you can rest assured that your bathroom works hard to adapt to your bathroom routines.

We also ensure that simple, functional design does not compromise on aesthetics. Essentials combines the latest bathroom trends with contemporary materials and stylish finishes to create a space that is both user-friendly and appealing.

// Product quality

Essentials conforms and exceeds required British and European quality, performance, safety, sustainability and water-saving regulations, created and nurtured by Crosswater to satisfy the demands made of a true British bathroom.

Kai

// Designs for every modern bathroom

A combination of aesthetics and function, our Kai WCs & basins are both simple and versatile, offering a level of design that combines effortlessly with every bathroom style.

// Guest cloakroom

Essentials bathroom solutions are adaptable to any bathroom need. All Kai basins whether wall hung, pedestal, semi pedestal or countertop are produced from ultra strong fine fireclay with a perfect white finish to match your WC. The bowls are tremendously deep and practical, to help minimise water spillage.

Featuring Kai close coupled WC with soft close thin seat, basin and semi pedestal.

// Hide-away cloakroom

An under the stairs cloakroom can provide an excellent additional bathroom area, but can be limited on space. The Essentials ceramic range has space-saving solutions to help you make the best of your cloakroom, including triple glazed wall hung WCs to give the illusion of more flooring space under the bowl.

Featuring Kai hand rinse basin and Kai wall hung WC with soft close thin seat.

w 580 x d 90-110 x h 1180mm

// Features

- Epoxy power coated steel frame, tested to take up to 400kg weight
- Large feet for easy rear fixing (specially designed for UK timber floor)
- Supplied complete with all fittings for installation
- WRAS approved dual flush cistern
- Adjustable feet with rubber sound deadening pads
- UK sized inlet and outlet pipe work
- Easy install wall brackets for vertical or horizontal fixing

// Height variation

Choose from 3 flush plate heights

For WC's fitted underneath a window or perhaps an awkward space, flush function plates can operate from three different heights regardless of the support frame height.

0.82m height frame

0.98m height frame

1.18m height frame

// Smart design

Space saving solution

If you are looking to save even more space, or if you have a restricted wall cavity, the super slim line frame and wall cistern offer the perfect solution. With a depth half the size of a standard frame, it is just a sleek 80mm.

ULTRA SLIM 1.18m height frame
WCF118X50-VS **£345.00**

Presenting all of the features and benefits of the standard depth but with a reduced depth of 90mm, this option is ideal for bathrooms where space is limited or you want to incorporate a tiled surround.

Straight WC outlet adaptor
WCFADPT+ **£20.00**

// Concealed WC cisterns

Create a sense of space and understated hotel style with a concealed cistern - a modern solution for a clutter-free, designer bathroom. There is a choice of heights to suit where the flush panel is situated, accommodating any constraints of the room.

// Features

- UK sized inlet and outlet pipe work
- Water saving dual flush cistern - factory set at 6/3 litre adjustable to 4.5/3litre
- Simple mechanical or cable connection method to ensure high performance
- Complete with accessible isolating valve
- Wide selection of decorative flush plates

Kai

// Modern furniture for today's bathroom

Kai wall hung furniture provides a truly spacious and affordable storage solution for the bathroom. Whether you choose the single drawer option, or upgrade to the sleek two drawer, all vanities are wonderfully completed with fine fireclay basin tops.

Grey oak

Honey walnut

White gloss

// Classic family bathroom

Beautiful yet fully functional, storage for toiletries in even the smallest of bathrooms is often a problem. Essentials introduces truly capacious furniture for bathrooms providing the very best off-the-floor, clutter free storage. Further enhance the contemporary feel with the sleek wall hung WC and create the ultimate and affordable bathroom experience.

Featuring Kai X wall hung WC with soft close thin seat, 800mm double drawer vanity unit & basin.

// Double vanity chic

Essentials furniture provides superb function with full extension, soft closing drawers on both single and double drawer formats. Offered in 600, 800 and a deluxe 1200mm twin bowl width. Sleek and easy to use, there is a finish to suit every style; choose from timeless White gloss, typically British Honey walnut and on trend Grey oak effect.

Featuring Kai vanity unit and basin and Kai X wall hung WC with soft close thin seat.

// Showering

Our Essentials showering range delivers a complete top-to-bottom solution that delivers on each element of shower function. Choose from a wide selection of shower heads, multifunctional valves, enclosures and shower trays, all designed to offer superior functionality at affordable prices.

SHOWER ENCLOSURES	38 - 47
BATH SCREENS	48 - 51
SHOWER TRAYS	52 - 59
SHOWER HEADS	60 - 63
SHOWER KITS & HANDSETS	64 - 67
SHOWER VALVES	68 - 75

// Shower enclosures

A comprehensive collection of shower enclosures, opt for variety of door styles, entry methods and handle options to create a tailored solution for you.

Pages 38 - 47

// Bath screens

For rooms with limited space, go for an over-bath shower screen. From single panels to foldaway designs, there is a practical solution for those daily showering routines.

Pages 48 - 51

// Shower trays

An extensive range of high quality, specialist shower tray solutions, catering to all room sizes and requirements for our shower enclosures.

Pages 52 - 59

// Shower heads

Choose from a comprehensive selection of shower heads, available in a variety of shapes, sizes and flow options. Whether wall or ceiling mounted, each design is manufactured to offer a luxurious experience for everyday use.

Pages 60 - 63

// Shower kits & handsets

Our high-performance shower kits are a simple and effective option for installing a premium shower head in any shower or bath. Cleverly designed, they also include a versatile riser rail.

Pages 64 - 67

// Shower valves

Whether you are looking for multiple outlet operation, or the latest precision thermostatic control, our range of shower valves will ensure your water flow is functioning efficiently and with the best results.

Pages 68 - 75

// A guide to creating the perfect showering experience

When it comes to your in-shower experience, here at Crosswater we have thought of everything.

Essentials not only brings you affordable solutions, but also guarantees quality, superior function and style across every product in the range. Whatever the size of your space, water pressure capabilities, or individual style preferences, we have got you covered on all aspects of showering.

// Shower enclosures

A comprehensive collection of shower enclosures, opt for variety of door styles, entry methods and handle options to create a tailored solution for you.

Anti-slip

Our anti-slip trays comply with DIN51097 class C - the highest anti-slip rating. We are the only manufacturer to thermo bond the Swiss Grip Antislip onto the tray with a curing process to ensure better performance for a cleaner and longer lasting surface. DIN51097 class C anti-slip ramp test.

Our anti-slip trays also conform to BS7976-2 within Sliptech's category for "Low potential for slip" which is the best possible rating.

White surface has anti-bacterial properties

Waste on quads is offset so that unobstructive when entering and exiting the showering area

New rear construction for easy fit leg system

Direct to floor or raised installation application on each tray

EN14527:2006 Class 1 compliant

EN15720:2009 compliant

90mm waste outlet

Leg set and panels available

Stone resin acrylic capped

45mm profile

Bacterial resistant

// Why visit your local bathroom specialist?

We believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?.....

1 Experience & expertise

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

3 Test drive showroom display products

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

2 Design consultations

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

4 After sales care

Once you have purchased from a bathroom specialist you can get personal and, most importantly, local after sales support.

5 They are nearer than you think!

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, MPRO and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

Find your local bathroom specialist at:
crosswater.co.uk

Product quality

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

// Understanding your water system

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

What is water pressure?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

Identifying your water pressure rating

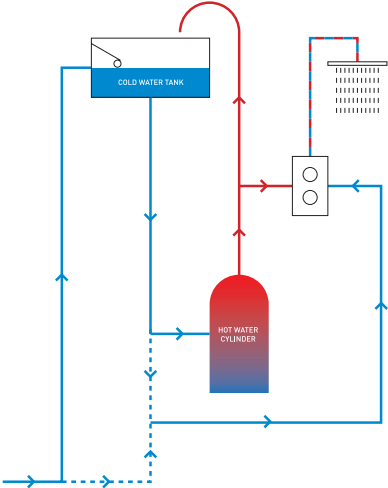

By identifying your home's plumbing system you can select a product that best suits your water pressure.

Why is this important?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar	HP2	minimum 2 bar
MP	minimum 0.5 bar	HP3	minimum 3 bar
HP1	minimum 1 bar	HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

Hot gravity & cold gravity/mains

Low pressure systems (LP min 0.2 bar)

- ✓ You have a cold water storage tank in the loft.
- ✓ You have a hot water cylinder.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (min 0.2 bar).

Note A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

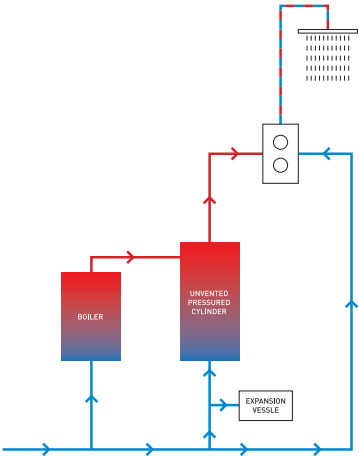

Combination boiler

Medium pressure systems (MP 0.5-1bar)

- ✓ You have a combination boiler that heats water on demand.
- ✓ You do not have any storage tanks.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

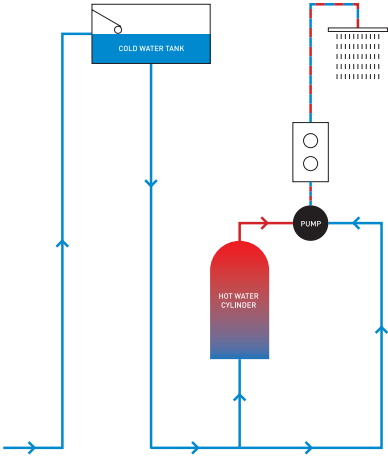

Mains high pressure

High pressure systems (HP1/2/3 2-3 bar)

- ✓ You have an unvented cylinder with an expansion cylinder.
- ✓ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

Pump assisted

High pressure systems (MP to HP4)

- ✓ You have a booster pump fitted.

Where a gravity flow of water is in excess of 0.6lpm, this is known as a 'Positive Head' condition (e.g. when your shower head is positioned lower than your cold water storage tank). In this situation, a positive shower pump can be used. A 'Negative Head' condition is when the gravity flow of water is less than 0.6lpm (e.g. when your shower head is positioned above the cold water tank level). In these conditions, a negative head pump must be used.

Negative shower pumps will work in both positive and negative head conditions. So for example, in a situation where there is a shower head above and below the water tank level; one negative shower pump can be used for both.

With the right pump, you can choose any of our products.

// Water saving

Regulators

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day.

You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

5 lpm basin tap flow regulator

Prices

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

Delivery

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

Returned Goods

Requests to return goods must be made in writing to Returns. Department@crosswater.co.uk and include the product details, purchase order number and reason for return.

Requests for items not required must be received within 21 days, be in perfect condition, in the original packaging and will be subject to a 12.5% re-stocking charge. Requests for damaged, goods with missing parts and picking errors must be received within 14 days of the delivery date. Faulty items may be returned for testing or inspection at any point but must be provided with proof of purchase. Special orders are non-returnable. Collection will only be made from point of delivery. Damaged goods will not be collected once they have been sent to a third party.

Retention of Title

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

Liability

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

Errors & Omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Product Compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

When installing wall mounted products Crosswater strongly recommend making provisions for any in-wall access points, particularly when tiling, for maintenance purposes. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

Water Pressure (recommendations)

LP	minimum 0.2 bar
HP1	minimum 1 bar
HP2	minimum 2 bar

All products marked LP (Low pressure) are also suitable for HP (High pressure) systems.

Thermostatic shower valve that offers two independent functions from a single valve.

Thermostatic shower valve that offers three independent functions from a single valve.

General

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated.

It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

Installation Notes

When installing a wall hung pan or wash basin please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own Crosswater does not supply any fixings. We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance.

All furniture ranges incorporate a factory fitted hanging system that allows safe and simple installation. Please ensure the correct wall fittings are used on solid or stud walls. Some furniture products are reversible for left or right hand door opening.

All shower door and bath screens incorporate a width adjustment feature offering between 15mm and 60mm width allowance to cope with out of true walls, ensuring that they sit squarely on the shower tray. Most products are reversible for left or right hand fitting.

Trays must be plumbed and level, walls should be tiled down to the tray and sealed before doors or frames are fitted. Dimensions are designed for tiled in trays - not unfitted tray sizes. All doors and enclosures must be fitted to a tiled surface, not tiled up to the inside edge of the door. Enclosures must not be completely sealed on the inside, please refer to fitting instructions. Due to the weight of the shower doors you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the enclosure.

Due to the weight of some products you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the product.

Suites and Ceramics

Vitreous China is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings if over tightened will create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures. All products should be inspected before attempting installation.

Cleaning & Maintenance

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth. NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products. Mirrors, cabinets and light fittings: Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products.

Product guarantee*

All Crosswater products unless otherwise stated carry a 15 year guarantee, shower doors and bath panels a lifetime guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Crosswater must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring. If the fault is not resolved the goods should be returned to Crosswater and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Crosswater will replace it with our nearest equivalent product.
- This guarantee covers normal use; it does not cover faults caused by incorrect installation, wilful damage, neglect, misuse, modification, inappropriate cleaning, accidental damage and other events outside Crosswater control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Crosswater.
- If a claim is made under this guarantee and the defect is not due to faulty materials or manufacture, Crosswater reserve the right to charge the customer at the current hourly rate in respect of any service engineer time.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.

The guarantee is in addition to and does not affect your statutory rights.

In the interest of continuing design, development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

*With the exception of products detailed with a 5 year guarantee in this brochure, tap and mixer cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses, Cistern fittings, radiator valves and toilet seats which are all guaranteed for 1 year. Crosswater products carry guarantees against manufacturing or component defects as follows:

Sanitary ware, ceramic and cast marble basins 15 years; Furniture, illuminated mirrors, bathroom cabinets and towel warmers 5 years. Edge bath screen, Supreme Deluxe bath screen and all seals - 12 month guarantee. 35mm shower trays - 5 year guarantee. Shower Wastes - 10 year guarantee.

Shower doors and bath screens, excluding display installations.

Glass breaks within 6 months of installation product replaced and costs for refitting are reimbursed by Crosswater

Glass breaks within 6-24 months of installation product is replaced but no fitting costs reimbursed

Glass breaks 24+ months of installation a 10% discount against a replacement product

General wear and tear to any of the above items would be considered a specific exclusion.
