TWENTY YEARS OF

bathroom obsession

We understand bathrooms. A place of retreat and rejuvenation, a space in which to wash away those daily stresses and prepare for the new day ahead. That is why at Crosswater we make it our business to be experts on each and every element of bathroom design.

For 20 years we have been celebrated as the leading supplier of premium bathroom furniture and suites. Throughout those two decades we have honed our expertise, perfected our designs and broadened our product offering - not to mention winning a few awards along the way - to bring you superior quality and unrivalled performance across every aspect of bathroom design. From sleek storage units and mirrored cabinets, to the latest in ceramic design, a combination of time-honoured manufacturing techniques, quality materials and tried-and-tested components are brought together to offer a complete range that proudly wears the Crosswater seal of approval.

By uniting our existing product ranges, we have now made it easier than ever to create a top-to-bottom solution that delivers on each element of bathroom function. Our design-led furniture collection caters to the essentials of bathroom storage, including a wide selection of basin units, storage towers and those luxurious additions that transform everyday bathing

routines into an indulgent experience. Combine this with a premium selection of bathroom towel warmers, stylish countertop basins and those all-important finishing touches, and you are covered on all components that make up a truly exceptional bathroom solution.

At Crosswater, we readily embrace the latest cutting-edge manufacturing processes and design trends to provide showering designs that meet the discerning standards set by you, our loyal customers.

David Hance

David Hance, Group Executive Director

OUTSTANDING

style with function

For style that goes hand-in-hand with the latest in bathroom innovation, our extensive collection caters to all functions and aesthetics.

When it comes to quality, we do not cut corners. Each product in the collection is designed to withstand the demands of daily bathing rituals, whether installed in a large family bathroom or luxury en-suite. As a result, strength and durability is key, and we can confidently say that you will experience nothing less from the Crosswater furniture and ceramics collection.

All of our furniture is manufactured using the very best materials and finishes, working hard to bring you an exceptional product that meets the demands of every hardworking bathroom. Team this with the very latest in ceramic firing processes, and heat output technology, and you have got everything you need to create a bathroom that is as inviting as it is functional. In fact, we are so confident in our products that we proudly offer a 15 Year Guarantee on the majority of our ranges.

Whatever style you are going for, we offer a breadth of contemporary and traditional designs to help you create that desired look. Our expert knowledge and high-quality

products ensure that the practicalities of every bathroom setup are covered, leaving you to enjoy the experience when it comes to planning your space.

FURNITURE FOR BATHROOMS

smarter storage

Whatever your bathroom requirements, there is a storage solution to suit all. From basin units to tower cabinets, create a space that is big on practicality with our extensive furniture range.

a wide choice

Choose from sleek high gloss and matt finishes, or naturally elegant woods in light, mid or dark tones; there is a choice to perfectly complement any bathroom scheme. Created using the finest materials and advanced techniques, the quality of all finishes is of an exceptional standard.

All Crosswater real wood veneer furniture finishes are produced from sustainable sources. Whilst we strive to deliver consistent finishes the use of natural veneers means there will be accepted furniture industry variances in tone, grain and colour appearance, this is just part of the enduring beauty of wood veneer furniture, and why your bathroom can be individual.

PU furniture for bathrooms

In the manufacture of today's bathroom furniture, an exceptional finish on the edge banding is a key measure for evaluating the quality of the entire item. The user expects a seal that is virtually invisible, water tight and strong, known as a 'zero bond-line'.

That is where PU adhesives hold absolute advantage. Blending a translucent bond-line, outstanding thermal stability, excellent adhesion and high moisture-resistant characteristics, a first-class finish can only be achieved by using hot melt polyurethane adhesives.

PU adhesives are used whenever a high resistance to temperature change, water, steam, solvents and chemicals is required, for example garden furniture and double-glazed window units. At Crosswater, we use this superior bonding polymer on our Elite, Seattle and Pier furniture, and that is why we have the confidence to offer a 10 Year Guarantee across these ranges.

Svelte

Combining sweeping curves with five elegant finishes, the Svelte furniture collection is a sleek and beautifully versatile range that will suit any bathroom layout.

matching brassware

Svelte brassware is designed to beautifully complement the Svelte furniture collection.

Visit our website for more details.

Adding to the already popular Svelte furniture collection, Crosswater introduces the statement design in a new Storm grey matt finish. Perfectly complementing the signature curves of Svelte, the fresh and contemporary tone features the unique ACTIVE anti-bacterial surface, which is designed to provide an ultra hygienic finish.

basin option

GET THE ULTIMATE WOW-FACTOR WITH NEW GLASS BASINS

Reflecting light in a crystal clear finish, these glass basins set a new standard in innovative bathroom design. Following the distinctive curves of Svelte's basin units, this exquisite cast glass basin and work surface is available in two finishes.

Beautiful finishes to suit all tastes

Manufactured using the highest quality materials throughout, Svelte furniture is available in five stunning finishes. Choose from the warm wood surface of the Eucalyptus veneer and American walnut veneer options, or for a modern yet timeless look opt for White gloss.

Furniture shown: Svelte Matt coffee Tap shown: Svelte Illuminated Mirror shown: Celeste

The new standard in furniture design

Taking its cue from the latest colour trends, Crosswater introduces its popular Svelte design in a silky smooth Matt coffee finish. Complemented beautifully against Svelte's signature curves and elegant basin, this warm, earthy tone works well in both classic and contemporary bathroom settings. The durable and hardwearing surface ensures a practical solution for everyday use, whilst the innovative ACTIVE anti-bacterial finish offers superior levels of hygiene.

vanity unit
CLEVER STORAGE
SOLUTIONS

Beautifully constructed, the top drawer of the Svelte basin unit has a cleverly designed cut-out section for the basin waste, ensuring you do not lose out on any crucial storage space. Thanks to the wonderfully deep double drawers, all your bathroom essentials are stored close by and easily accessible, while the roomy basin work surface remains clutter free.

stunning shapes & sizes

Available in five different size options, the Svelte vanity units are suited to all bathroom spaces.

Furniture shown: Svelte White gloss Tap shown: Svelte Illuminated Mirror shown: Svelte Corner

Utilising space with smart design

Making the most of every inch of space, the Svelte Corner unit is the smart choice for smaller bathrooms. A hugely practical offering that will utilise most unused corners, Svelte's elegant curves and sleek finish have been incorporated into this compact unit, without compromising on style or floor space. Deep double drawers provide ample storage for toiletries and cleaning materials, with up to 40kg capacity for heavier items, and come complete with soft close runners to provide a smooth and quiet closing motion.

Compact design
without compromise

anti-bacterial finish ERADICATE THE INVISIBLE ENEMIES

On average there are more bacteria on one hand than people on earth! On non-protected areas the number of bacteria can double every 20 minutes, none more so than in the bathroom. One bacterium can generate a population of millions in 8 hours and thousands of millions in 12 hours!

Svelte veneer and lacquer finishes feature as standard a ground-breaking non-toxic and permanent antibacterial treatment called ACTIVE that complies with Europe's most stringent quality standard ISO22196:2007. Active guarantees unlimited protection as the treatment is permanent and under tests reduces the proliferation of common bacteria by more than 99%.

White gloss

Matt coffee

Storm grey matt

Eucalyptus veneer

American walnut veneer

Offering a look to suit all bathing spaces, Svelte Corner is available in five finishes: White gloss, Matt coffee, Storm grey matt, Eucalyptus and American walnut veneer. Complemented against the white surface of the inset basin, opt for a minimalist look with a combination of white-on-white, or combine with the warm tones of the wood-effect finishes for a luxurious appeal.

Note

When ordering more than one American walnut unit we strongly recommend taking delivery of products at the same time.

This is genuine wood veneer, manufactured in carefully controlled batches to achieve as close a colour and tone match as is possible with real wood.

Three tap hole basins are only available to special order, please contact our sales.

Once ordered these basins cannot be cancelled or returned.

To ensure full use of drawers we recommend using the furniture trap BTR0410W see page 191.

Svelte basins should be cleaned using our Mineral Marble Basin Cream Cleaner/ Polish 150g bottle SD150RW **£20.00**

The latest in compact furniture for bathrooms

Curved handle option

Straight handle option

Combining slender proportions with the latest in bathroom aesthetics, the new Zion Petite furniture collection features generous storage capacity despite its compactness. The new range is ideal for smaller and secondary bathrooms. A choice of contemporary finishes is complemented with the option of two handle designs.

mini taps and accessories

*We have got a range of mini basin
mixers and accessories to complement
the proportions of Zion.*

Visit our website for more details.

**Compact design
without compromise**

size matters

PERFECT PARTNER FOR SMALL SPACES

There is no need to compromise on style and function when it comes to small bathrooms and cloakrooms. We have developed our shortest WC, perfect for teaming with the compact proportions of the Zion furniture range.

See page 130 for more information on the Pier WC.

Striking woodwork detail

Achieve the aesthetic beauty of wood in the bathroom with the additional benefit of strength and durability. Available in three sizes options to suit a range of bathroom capabilities, the tactile wood-look surface is enhanced with a choice of contemporary finishes in Ebony, Steel and Anthracite.

Furniture shown: Pier Steel Tap shown: Pier Illuminated Mirror shown: Celeste

Multi-functional with versatile storage compartments, Pier offers a practical and aesthetic solution for bathrooms with restricted space or those looking to achieve an uncluttered look. The wall hung unit provides a large work surface area, generously deep basin and handy soft-close drawers, which combined creates a highly convenient and organised bathing space.

Moisture resistant furniture

Presenting the latest furniture production technology. Using polyurethane adhesive and high end edge banding providing a genuinely moisture resistant finish.

10 YEAR GUARANTEE

Our Elite, Seattle and Pier furniture ranges are manufactured using high-quality PU adhesives. This results in exceptional resistance to temperature change, water and chemicals, extending the life of the item. See page 15 for more details.

When ordering more than one American walnut veneer unit we strongly recommend taking delivery of products at the same time. This is genuine wood veneer, manufactured in carefully controlled batches to achieve as close a colour and tone match as is possible with real wood.

the ideal match

To achieve a coordinated look in the bathroom, complement your Glide II basin unit with a matching WC furniture surround in the new Driftwood finish. Choose from a floor mounted unit or wall-hung option, and combine with the range of contemporary flush plates and Crosswater suites for a complete bathroom look.

10 YEAR GUARANTEE

Our Elite, Seattle and Pier furniture ranges are manufactured using high-quality PU adhesives. This results in exceptional resistance to temperature change, water and chemicals, extending the life of the item. See page 15 for more details.

The new generation of white

Just when you thought white could not get any better, Crosswater relaunches its definitive Elite furniture range in a new, bright white gloss finish. A tone that never dates, the crisp lacquered surface merges seamlessly with the angular white basin, creating a minimalist look that will coordinate effortlessly with the modern bathroom. Coupling sleek handleless drawers with the design's wall hung positioning helps to create an illusion of space and light, perfect for smaller bathrooms, or those with no natural light.

A generously deep single drawer offers plenty of space to store away clutter, whilst the soft close, push-to-open door allows easy access to the interior with a smooth gliding motion. Complete with the 'odour-free' waste fitting, the Elite White gloss basin unit is completed with the coordinating Pier monobloc tap in contemporary chrome and white.

Pier

Short projection WC for the smallest of spaces.

Small bathrooms no longer have to compromise when it comes to great design and first-class function. The Pier WC, a contemporary yet very simple toilet, has the shortest projection on the market at a minimal 43cm. Not only compact, the seat is still extremely comfortable and fits perfectly in limited spaces, whilst the high-function flush performance is as good as it gets.

Introducing an innovation in ceramic glaze technology, Pier is expertly crafted from CERASLIDE®; a forward-thinking firing process that ensures the perfect surface consistency to resist stains, limescale, daily wear-and-tear and assist with flush performance. Teamed with the BATAFORM® anti-bacterial treatment, the combination ensures an impeccable level of hygiene alongside a luxurious gloss finish, ensuring all round wellbeing in the bathroom.

Wild

Setting the standard for bathroom sanitaryware design.

A stunning example of pure Italian design, Wild is a superior bathroom suite that pushes the boundaries of ceramic design. Exhibiting the very latest in design-led sanitaryware, style, function and performance are expertly combined to offer a range that is as visually appealing as it is functional.

Rimless WCs

Easy to clean

Deeper hygiene

*made in
Italy*

All Wild wall and floor mounted WCs feature a streamlined rimless bowl – no rim means there is nowhere for germs and limescale to hide, making it ultra hygienic and effortlessly easy to clean. The latest fluid flush mechanisms also provide a powerful horizontal and vertical water stream to ensure coverage across the entire surface of the bowl without splashing.

Smart rimless design

layout versatility

COORDINATING WC FURNITURE

To achieve a modern look that beautifully complements the Wild range, the coordinating WC furniture streamlines the entire space and conceals unaesthetic working parts of cisterns. With only the beautiful flush control on display, WC furniture offers a clutter-free solution that adds an element of clever design combined with style. Easy to install, there is a choice of frame sizes to suit larger rooms and ultra slim designs for those seeking a more sleek, minimalistic look.

Support frames and cisterns

Our support frame and cistern range is designed specifically for UK homes, featuring an array of innovative designs and installation features, which is why our products are renowned for excellence in design and quality.

layout versatility

SYSTEMS FOR ANY SIZE BATHROOM

Whatever the size or shape of your bathroom, Crosswater fitting systems can be utilised in any bathroom to safely install a WC that suits your lifestyle. The smart and versatile systems mean that you can take your design aspirations and make them a reality. Easily install a toilet right next door to a shower by having the cistern concealed in a wall, or fit the WC into an awkward corner with the ingenious angled bracket. The back-to-wall WC is perfect for complementing the WC cisterns when concealed within furniture or a cavity.

See page 152 for Wall hung WC frames.

simple installation

SYSTEMS FOR ALL SURFACES

From large new build family bathrooms to modernising a bijou en suite, the ease of installing Crosswater flushing systems ensures that your project runs smoothly. Time and cost effective, frames can be built into a wall cavity or placed in front of a wall using a clever cistern surround. If you want to tile a wall, select a waterproof frame surrounds that can also be tiled. Alternatively, for a completely harmonised bathroom scheme, simply choose a surround to match your Crosswater furniture.

Concealed WC cisterns
see page 154.

wall hung support frames

SPACE SAVING DESIGNS

Wall mounted WC's are becoming the favoured choice of style-savvy homeowners and designers. Open up the smallest of spaces or enhance larger bathrooms by creating more floor space, which instantly creates the illusion of space. For busy family bathrooms, it is also quicker and easier to clean.

See page 152 for Wall hung WC frames.

efficient

QUIET & ECO-FRIENDLY

As with all Crosswater products, installation systems offer an array of outstanding features and benefits. All cisterns are extremely quiet with an option to install pads to deaden any sound even further. They also feature dual flush technology so you can choose how much water you use, which can also cleverly help you to save even more water by simply adjusting the larger flush to the reduced water volume setting. Plates are available in a choice of designs and colours to complement your bathroom scheme and to suit your taste.

Press the large button and flush with the entire water volume.

Press the Eco button and flush with a reduced three-litre volume.

CHOOSE DUAL FLUSH TECHNOLOGY
AND USE UP TO **40% LESS WATER**

Wall hung WC support frames

Wall mounted furniture cleverly makes a compact bathroom appear less cluttered and more spacious. There is a range of frame sizes to suit larger rooms and a ultra slim designs for those seeking a more sleek, minimalistic look.

Epoxy power coated steel frame, tested to take up to 400kg weight

Large feet for easy rear fixing (specially designed for UK timber floor)

Supplied complete with all fittings for installation

WRAS approved dual flush cistern

Adjustable feet with rubber sound deadening pads

UK sized inlet and outlet pipe work

Easy install wall brackets for vertical or horizontal fixing

the finishing touch SMART DETAILS

There is a wide choice of flush plate styles available to beautifully complement any bathroom design. Completing a well-dressed bathroom, look to match brassware, WC contours or décor, to suit your own personal taste. Compatible to both framed and concealed cisterns, they feature an ingenious yet simple connection method to ensure high performance and functionality every time.

An eco friendly option, the dual-flush function helps you reduce water consumption, whilst cisterns are supplied at 6 and 3 litres for further water saving capabilities. Part G compliant to meet water consumption regulations, all cisterns can be easily adjusted to reduce the larger flush volume to 4.5 litres after installation.

BASINS

curve appeal

A style statement for bathrooms, opt for elegance when it comes to picking your basin with our wide range of countertop, wall-mounted and inset styles.

how to choose your basin

Whether you are sourcing for a small cloakroom, a luxury designer suite or practical family bathroom, it is important you choose the right style of basin.

ideal for worktops COUNTERTOP BASINS

Mounted onto a worktop console or piece of vanity furniture, this style of washbasin provides ample storage below for a variety of bathroom items, whilst also concealing the plumbing. Thoughtfully designed, full countertop basins are finished all the way around to allow you to beautifully accessorise with a mirror that can be hung directly behind.

Countertop basins page 176.

minimal look UNDERMOUNT BASINS

This style of basin is fixed to the underside of the worktop and must be securely fixed using a metal bracket and silicone. A designer touch, this style is the perfect solution to utilitarian schemes with a minimal amount of white porcelain on show. It is important to ensure that worktops are cut out from a template of the actual basin, it will also require a waterproof finish.

Undermount basins page 184.

flexible design BACK TO WALL COUNTERTOP

A flexible design that is suitable for mounting onto a vanity unit or within a worktop, this style can also be wall hung. Depending on your preference for fitting, if you choose to install in a vanity unit or worktop, a hole needs to be cut and waterproofed to accommodate the basin. The design features pre-drilled holes at the back should you wish to wall hang, therefore it's unsuitable to feature a mirror behind.

Back to wall countertop basins page 176.

for a spacious look WALL MOUNTED BASINS

The most popular basin style, selected ranges can also function as a practical countertop. Convenient to install, extra care should be taken when mounting to a solid or external wall. Depending on the size and weight of the washbasin, it is advisable to fix the basin to a mounting board behind a stud-framed wall. For secure installation, pre-drilled holes on the back edge are visually apparent on all wall hung designs.

Wall mounted basins page 180.

create a designer look FURNITURE/INSET BASINS

A super all rounder that can accommodate all tastes, an inset basin style can be simply placed onto a furniture carcass or by cutting out the area of your worktop. A stunning finish, this style of basin creates a stunning feature in any style of bathroom. Choose from linea designs to subtle curvaceous shapes to complement your scheme.

style finder

With such a vast range of basin designs you will feel spoilt for choice so, we have created the definitive guide to help you choose a style.

crosswater taps COMPLEMENTARY BRASSWARE AND BASINS

Selecting the right tap for your basin is essential to achieve your desired look and performance. Always select the basin before the tap fittings and ensure you choose a washbasin that can accommodate your choice of tap. When choosing a basin and mixer, consider your water pressure. Higher water pressures or pumped water supply systems will influence the suitability of your chosen tap and basin, so take note of your water pressure. A high pressure reducing valve or flow restrictor will give you added flexibility.

When choosing a mixer (mini, standard, tall or wall mounted) and basin please take note of your water pressure. Higher water pressures or a pumped water supply system may also influence the style or size of basin you choose and type of tap used. The use of a high pressure reducing valve or flow restrictor will add to the flexibility of choice you have. Please seek advice from your retailer with style. Easy to install, there is a choice of frame sizes to suit larger rooms and ultra slim designs for those seeking a more sleek, minimalistic look.

MADE IN EUROPE
DESIGNED FOR THE UK

All of our Gallery washbasins are 100% manufactured in Europe yet designed specifically for use in UK bathrooms.

Gallery

A collection of the finest ceramic & cast marble basins.

Taking its cue from ancient fine art, our latest collection of beautifully formed basins has been created to offer pioneering ceramic design with stunning visual appeal. Featuring a creative mix of shapes from organic, elegantly refined forms to slender architectural designs and squared styles with softened angles, Gallery basins are also a leap forward in ceramic technology.

Produced from fine fire clay that allows for more complex designs and a super-slim wall profile, this incredibly durable product is light in weight too. Finished in a white glaze, opt for our superlative 'Platinum' finish for a glamorous hint of luxury in any bathroom.

Furniture/ inset basins

A great choice for a designer look, inset basins create a modern finish when teamed with bathroom vanity units.

integrated furniture PERFECT FOR BATHROOM VANITY UNITS

Available to purchase with a range of Crosswater's furniture designs, this basin style can also be easily placed into any carcass or worktop by cutting out the required area. With a choice of contemporary linear designs to subtly curvaceous shapes, this basin style sits close to the worktop making it a practical yet stylish choice for any bathroom scheme.

Basin & furniture compatibility

We want your bathroom to be completed just as you had imagined. To ensure your basin is compatible with the furniture you've chosen, use the table opposite.

MIRRORS & CABINETS

on reflection

Essential for every bathing space, our design-led collection of mirrors and mirrored cabinets caters to both the practical and decorative requirements of the bathroom.

Illuminated mirrors

The ultimate bathroom essential, no bathing space is complete without an illuminated mirror to assist with daily routines.

HEATED DEMISTER PAD

Most of the mirrors come with heated demister pads, making steamy mirrors a thing of the past. These pads heat the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms. The demisting effect will spread approximately 10-20% further than the pad itself.

NO TOUCH INFRARED ON/OFF SWITCH

All Crosswater mirrors are equipped with a no touch infrared on/off switch situated on the side of the mirror, thus removing fingerprints from the mirror surface or pull switch.

IP44 RATED CLASS 1 RATED

All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room. See page 285 for more information on electrical safety and installation.

5MM MIRROR GLASS

PVC film backing safety glass complying to EN6206:1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

LED LIGHTING

Providing superb function with fabulous decorative style, all mirrors feature the latest high luminosity, low energy consuming LED lighting. Cool White 6400k.

5 YEAR GUARANTEE

The majority of our illuminated mirrors come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Bluetooth® speakers

Dimmable lights

Shaver socket

Important notes

Mirrors must be mounted so that the sensor switch is a minimum of 150mm from an adjacent wall or obstruction to ensure function of the sensor switch. If a mirror is mounted portrait, the sensor is located on the bottom right hand edge of the mirror. If mounted landscape, the sensor switch is located on the bottom left hand corner. All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 240 for more information on electrical safety and installation.

Mirrored cabinets

Store away those everyday bathroom essentials discreetly and safely with our range of stylish mirrored cabinets.

ALUMINIUM CARCASS
Fully rigid, strong, easy to maintain, anodised aluminium carcass, perfect for use in humid bathroom conditions.

LED LIGHTING
Near natural truly practical low energy light source. No-flicker instant on and off illumination. IP44 rated. Cool White 6400k. (except Non-electric 60)

DOUBLE SIDED MIRRORED DOORS
Really practical head and shoulders height viewing. Double sided enables you to apply make up and shave even when the door is open. The mirror's edges are sealed to minimise the possibility of moisture damage.

SOFT CLOSE DOORS
Clatter and clunk free closing with fully adjustable soft closing hinges.

NO TOUCH INFRARED ON/OFF SWITCH
High-tech sensor switch, so no unsightly pull cord, discreetly positioned underneath the cabinet for simple use. IP44 rated. (except Non-electric 60)

5MM MIRROR GLASS
PVC film backing safety glass complying to EN6206.1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

CONTINUOUS SHELF HEIGHT ADJUSTMENT
Intelligent shelf height adjustment allowing shelves to adjusted to any height, without unsightly drilled holes.

5 YEAR GUARANTEE
The majority of our mirrored cabinets come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Heated demister pad

Shaver socket

Chrome door pull

Important notes
All cabinets are IP44, Class I rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 240 for more information on electrical safety and installation. Cabinets conform to BS EN 60598-1:2008+A11: 2009 and BS EN 60598-2-1:1989. Fluorescent feature electronic ballast, and are fast on off with minimal flicker effect.

Allure

Beautiful outside, intelligent inside.

Designed to offer the latest in functional technology, Allure is the ultimate bathroom storage solution boasting smart features throughout and up-to-the-minute visual styling. Beautifully illuminated from all angles, the cabinets feature the next generation of LED lighting, offering superior performance at the lowest possible energy consumption. Plentiful storage space is provided behind Allure's double-sided mirrored doors, which conceal the cabinet's patented hinge technology, complemented by a stylish and practical mirrored back panel, ensuring clear reflection at all times.

Add to this enviable features such as heated mirror doors, an integrated charging socket and sensor on/off switch and it is easy to see why Allure is the perfect bathroom cabinet.

TOWEL WARMERS

turn up the heat

The ideal solution for creating a bathroom that is toasty and inviting, we have a towel warmer to complement individual tastes and room sizes.

MADE IN EUROPE
DESIGNED FOR THE UK

All our Gallery towel warmers are manufactured in Poland and designed specifically for use in UK bathrooms.

Gallery

Blending function and form, the Gallery collection offers a superior range of heated towel warmers for every bathroom setting.

Combining up-to-date styles with the latest in thermal technology, the range of Gallery towel warmers is guaranteed to make a statement in any bathroom. Manufactured using high-grade steel, each individual design provides superior heat output and plentiful hanging space for drying towels quickly and efficiently.

QUALITY CONSTRUCTION
Highest quality, low carbon steel ensuring product longevity to EN10305-5.

ANTI-CORROSION
Introducing Oxilan®, a state-of-the-art and eco-friendly corrosion protection process that is used in premium car bodies. A single layer coating offers the same degree of corrosion protection as ten times thicker zinc phosphate layers. This reduces material consumption, pre-treatment times and increases productivity through a genuinely eco-friendly production process.

3D LASER TECHNOLOGY
All rails use the very latest 3D laser technology for cutting and boring tubes, for the highest quality finished product, performance and longevity.

LEAK TESTED
Each towel warmer is leak tested twice during the manufacturing process.

EXPERTLY ENGINEERED
Curved rails are created using 'Free Form' bending, resulting in 100% accurate internal and external curves for better water flow and heat output.

FULLY TESTED
1,000 hour salt spray tested.

WELDING TECHNOLOGY
Copper infused welding technology ensures all gaps are correctly sealed and provides an invisible joint.

10 YEAR GUARANTEE
Our heated towel warmers come with up to a 10 Year Guarantee, which covers all manufacturing defects.

Wedge

For those who want something a bit different in a towel warmer, Wedge offers exceptional design with precision 3D laser-cut sections.

Summer heating elements

Also known as dual fuel or dual energy. Connected to a central heating circuit and including an electrical element that allows operation in summer months when the central heating is not in use.

Chrome heating elements

FUNCTIONALITY

These heating elements use the latest intelligent heating and safety technology. Featuring two temperature settings of 45°C or 60°C, an in-built electronic temperature sensor ensures precise control with a smart 2-hour timer featured as standard. Simple to use with a single control button for all functions, the device displays its current operating mode using multi-coloured LEDs. The heating element has very low power consumption when in standby mode 0.5w.

SAFETY

Featuring an active safety feature that initiates in the event of dry radiator operation, the heating element is equipped with a temperature sensor and thermal fuse (double overheating protection). The element will display warning indicators in the case of malfunction. Rated I, IPX5.

SLEEK AND UNOBTRUSIVE

A subtle add-on to your choice of rail, the elements fit easily inside the rail, blending seamlessly with the collector profile so becoming an integrated part of your towel warmer.

Chrome Heating Element 300w
RADX300C £205.00

Chrome Heating Element 600w
RADX600C £205.00

These elements are suitable for all Crosswater towel warmers.

Standard heating elements

Electric Element 150w
RADX300 £80.00

Electric Element 300w
RADX350 £85.00

Electric Element 600w
RADX700 £95.00

All Summer heating elements are IP54 rated.

Summer heating elements are supplied with T Piece.

Please refer to the bathroom zone diagram when using electrical components within the bathroom environment, see page 240. The summer element is equipped with a thermal fuse that will cut out at 65°C, with a total shut down safety setting at 78°C.

These elements are suitable for all Crosswater towel warmers, where an element can be fitted.

Metallic Black Matte / Soft White Matte Finishes

Oxsilan® providing up to 65% more protection than standard zinc coating. High quality double layer Electro-static powder coating application for 100% surface coverage, massively reducing wear and tear and greater product lifetime. The most efficient heat output up to 20% higher than chrome. Self coloured metal wall fixings.

Chrome Finish

Oxsilan® providing up to 65% more protection than standard zinc coating. Each rail is 100% wheel polished and sandblasted then electro chemically de-greased and bleached to prevent oxidising, ten: Nickel Primer 3micron / Copper coat 20-25 micron (for flatter surface and enhanced protection) / Nickel 20-25 micron / Chrome finish 0.5 micron - Result level 10 chrome plated finish.

Towel Warmer projection is between 75 - 100mm.

Supplied with complete wall fixings and manual air vent.

Manufactured from high grade mild steel conforming to EN 10305.

Geometrical and surface finish - Round EN 10234 / EN ISO 4287, Flat Tube EN 10233 / EN ISO 4287, D Profile EN 10233 / EN ISO 4287.

Fitted with 1/2" BSP connections.

Tested to EN 442 ∴ T = 50K All outputs certified to EN 442.

To make an approximate conversion from T=50K to T=60K multiply outputs by 1.2.

**Summer Heating Elements are supplied with T Piece.

Towel Warmer projection is between 75 - 100mm.

Supplied with complete wall fixings and manual air vent.

Manufactured from high grade mild steel conforming to EN 10305:

Geometrical and surface finish - Round EN 10234 / EN ISO 4287, Flat Tube EN 10233 / EN ISO 4287, D Profile EN 10233 / EN ISO 4287.

*Tested to EN 442 ∴ T = 50K All outputs certified to EN 442.

To make an approximate conversion from T=50K to T=60K multiply outputs by 1.2.

**Summer Heating Elements are supplied with T Piece.

Electrical information

The diagram below is supplied as a guide to Bathroom Zones as referred to in IP ratings of the over mirror lamps and electric heating elements. Please refer to the latest edition of BS 7671:2008(2011) to ensure conformity.

It is important to install light fittings and electric Towel Warmer elements in the correct bathroom zone i.e. the zone referred to in the IP rating of the element. This is not an installation guide and reference should be made to the latest edition of the IET Wiring Regulations or a qualified electrician member of NICEIC or IET.

Zone 0 is inside the bath or shower tray itself. Any appliance used in this zone must be rated at least IP67 which is total immersion proof.

Zone 1 is the area above the bath or shower tray to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required and elements must also be protected by a 30mA residual current device (RCD) to protect the circuit. The electrical connection to the power supply for these appliances must be in Zones 2/3 of the bathroom in compliance with BS 7671:2008(2011) - IEE Wiring Regulations.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition it is good practice to consider the area around a washbasin, within a 60cm radius of any tap to be considered as zone 2.

Crosswater IP44 lamps come without a pull switch, and are designed to operated via an existing and suitable room light switch.

Failure to have electrical products installed and certificated by a qualified electrical engineer will invalidate any product guarantee.

For full details reference should be made to the latest copy of the IEE wiring regulations and all applicable British Standard and European norm specifications.

ACCESSORIES

finishing touches

It is all about the little details. Choose from a beautiful range of coordinating accessories to complete the finished look of your bathroom.

design options TRADITIONAL STYLING

A truly classical selection of accessories specially created to complement the Belgravia brassware collection. Featuring luxurious detailing and an element of splendour that captures the elegance from yesteryear, Belgravia is an authentic reproduction that is true to the Victorian period. Manufactured from brass and zinc using the latest technology, Belgravia has a wide selection of accessories for the bath, basin, WC and showering areas. Finished in an elegant chrome plated finish, the designs in this range are truly timeless classics.

Why visit your local bathroom specialist?

We believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?....

1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

3 Test drive showroom display products

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

2 Design consultations

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

4

AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

5 They are nearer than you think!

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, MPRO and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

Find your local bathroom specialist at:
[crosswater.co.uk](https://www.crosswater.co.uk)

PRODUCT QUALITY

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

Terms & conditions

Prices

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

Delivery

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00. Any claims for non-delivery, shortage or damaged goods must be reported in writing to the company within 14 working days from date of delivery. Such claims will not be accepted for deliveries to a third party delivery address.

Returned goods

Requests to return goods must be made in writing to Returns. Department@crosswater.co.uk and include the product details, purchase order number and reason for return. Requests for items not required must be received within 21 days, be in perfect condition, in the original packaging and will be subject to a 12.5% re-stocking charge. Requests for damaged, goods with missing parts and picking errors must be received within 14 days of the delivery date. Faulty items may be returned for testing or inspection at any point but must be provided with proof of purchase. Special orders are non-returnable. Collection will only be made from point of delivery. Damaged will not be collected once they have been sent to a third party

Retention of title

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

Liability

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

Errors & omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Product compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

General

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated.

It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

Easy installation

All furniture ranges incorporate a factory fitted hanging system that allows safe and simple installation. Please ensure the correct wall fittings are used on solid or stud walls. Some furniture products are reversible for left or right hand door opening.

Installation notes

When installing a wall hung pan or wash basin please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own Crosswater does not supply any fixings. We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance. Due to the weight of some products you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the product.

Suites and basin ceramics

Vitreous China is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings if over tightened will create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures. All products should be inspected before attempting installation..

Care and cleaning

Furniture, ceramic, glass, accessories and radiators are made to the highest standards, by following the simple guidelines below will provide you with many years of enjoyable service.

General:
NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products.

Furniture:
Apart from regular wiping off the furniture units can be cleaned with a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Mirrors, cabinets and light fittings:
Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products

Sanitary ware, toilet seats, glass basins and ceramics:
Sanitary ware/ceramics should be cleaned after use by applying a little cream-type cleaner using a sponge or damp cloth and rinsed thoroughly with clean water. In hard water areas a good quality lime-scale remover can be applied.

Toilet seats should only be cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; products containing bleach can lead to staining. Toilet seat hinges should be cleaned ONLY using a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Cast mineral resin basins:
The high gloss polished finish is easily cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; in hard water areas a good quality lime-scale remover can be applied. Accidental spillages of household chemicals, nail polish, hair dye should be removed immediately, clean the surface with warm soapy water and wipe dry.

We recommend regular application of Crosswater Mineral Basin Cream Polish SD150RW this will assist in preventing the build up of lime scale and retain the gloss lustre.

Towel Warmers:
Should be cleaned when cold with a moist soft or micro fibre cloth. Any stubborn surface or oxidation marks can be cleaned with Maas® Metal Polishing Crème, that will leave a long-lasting, fingerprint-repelling protective finish.

Product guarantee*

All Crosswater products unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defects. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Crosswater must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring. If the fault is not resolved the goods should be returned to Crosswater and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Crosswater will replace it with our nearest equivalent product.
- This guarantee covers normal use; it does not cover faults caused by incorrect installation, wilful damage, neglect, misuse, modification, inappropriate cleaning, accidental damage and other events outside Crosswater control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Crosswater.
- If a claim is made under this guarantee, and the defect is not due to faulty materials or manufacture, Crosswater reserve the right to charge the customer at the current hourly rate in respect of any service engineer time.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.

The guarantee is in addition to and does not affect your statutory rights.

In the interest of continuing design, development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

*Crosswater products carry guarantees against manufacturing defects as follows:
Sanitary ware, ceramic and cast marble basins 15 years;
PU bathroom furniture 10 years, other furniture 5 years, Illuminated mirrors, bathroom cabinets and towel warmers 5 years.
Cistern fittings, radiator valves and toilet seats 1 year.

General wear and tear to any of the above items would be considered a specific exclusion.

Total bathroom inspiration!

From furniture to flush plates we have everything you will need to create the perfect bathroom.
