VANGUARD

IT'S OUR

Style

THAT SETS US APART

For 20 years Crosswater has been celebrated as the leading supplier of premium bathroom fittings. Throughout those two decades we have honed our expertise, perfected our designs and broadened our product offering - not to mention winning a few awards along the way - to bring you superior quality and unrivalled performance across every aspect of bathroom design. Our story is very much a part of who we are. Vanguard is a collection designed for the discerning, taking the traditional concept of bathroom function and elevating it to new levels of luxury.

A blend of time-honoured manufacturing techniques, superior materials and using up to the minute component technology are brought together to offer a truly curated collection that proudly wears the Crosswater marque. From the finest in brassware and furniture design,

to the latest innovations in bathroom technology, Vanguard offers an elite selection of products that has been handpicked for the highest specification projects. Quality, style and those all-important finishing touches go hand-in-hand, creating distinctive pieces that make a statement yet never compromise on core functionality. The Vanguard collection is the epitome of luxury and style, transforming everyday bathroom routines into a truly indulgent experience.

At Crosswater, we are proud to embrace the latest cutting edge manufacturing processes and design trends to provide bathroom designs that meet the discerning standards required in today's market.

Contents

An exclusive collection designed for the discerning, Vanguard brings you four exquisite ranges across brassware, showering and ceramics. This is luxury bathroom design at its finest.

UNION

Setting a new standard for contemporary brassware engineering, this innovative collection is a leap forward in design for the modern bathroom.

PAGES *06-39*

AXENT

The next generation of bathroom technology, AXENT.ONE is an innovation in bidet toilets that promises to revolutionise our daily cleansing routines.

PAGES *40-53*

WALDORF

Classic in its inspiration, Waldorf is a truly evocative bathroom collection, combining craftsmanship with early twentieth-century styling.

PAGES *54-95*

LUXURY SHOWER HEADS

The highest standard in contemporary showering, choose from luxury rainfall, decadent multi-flow and innovative LED heads.

PAGES *96-101*

UNION

by crosswater[®]

PRECISION BRASSWARE CAST IN ITALY

UNION, setting a new standard for contemporary brassware engineering, this innovative collection is a leap forward in design for the modern bathroom. Presenting Italian artisan brassware skills at its finest, each component is cast, precision machined, polished and perfected to offer an elevated bathing experience.

In a move to challenge the traditional concept of bathroom fittings, UNION is engineered to provide unparalleled functionality and designed to make a statement. Only the very best components are used, coupled with stringent quality standards resulting in a product that will stand the test of time.

UNION brings you four distinctive finishes available across a complete collection of bathroom taps, valves, showerheads and bath fillers.

CUTTING-EDGE FROM **START TO FINISH**

Smart on the inside, UNION is manufactured using the most advanced brassware engineering techniques and the latest in cartridge and thermostatic valve technology to offer complete water flow control. Behind the scenes each product is intuitive, high performing and built to last, offering the user a premium level of functionality with each and every use.

PRECISION ENGINEERED FINISHES

UNION is tailored to the individual. Four refined finishes are offered across the entire collection, presenting a selection of brassware products that are as beautifully coordinated as they are designed.

For the traditionalist, UNION brings you classic Chrome and Brushed Nickel finishes. Those seeking a design statement can opt for on-trend Brushed Brass and the unique Brushed Black Chrome. Each unique surface is complemented alongside distinctive, knurled detailing, expertly machined as accents on to each individual piece.

“The design of the UNION range is inspired by iconic industrial forms and renowned Italian design flair to produce a simply outstanding new standard in brassware form and function to bring our customers a truly premium product.”

AXENT

SWITZERLAND

from crosswater[®]

THE LATEST INNOVATION IN BATHROOM HYGIENE

AXENTONE is a new generation shower toilet with a series of exceptional functions that can all be controlled using a single knob. It makes everything superfluous obsolete.

Nothing is as hygienic as cleaning with water. It gives us a sense of vitality and vigour. It has the power to heal, restore and rejuvenate. We shower in the morning, bath at night and wash our hands in between. Feeling clean is a part of our lives and is almost as natural as breathing itself. Why then, do we give much less consideration to how we cleanse ourselves after we use the bathroom?

Introducing AXENTONE - the hygienic way to stay really fresh. All day.

MINIMISED TO PERFECTION

Design is not just about what looks good. Design needs to perform, convert, astonish, and fulfil its purpose. It might be innovative, or it might simply get the job done. We believe in the principle of delivering simplicity through complexity. Perfection is not having nothing more to add, but having nothing more you can take away. AXENT. ONE is a new generation shower toilet with a series of exceptional functions that can all be controlled using a single knob. It makes everything superfluous obsolete.

Matteo Thun
MATTEO THUN & ANTONIO RODRIGUEZ DESIGN

To remove the lid and cover for cleaning purposes, simply place them in an upright position.

CLEAN BY DESIGN

AXENT. ONE redefines modern toilet hygiene and transforms a bathroom into a sanctuary of luxury. The stain resistant surface and the rimless profile help eliminate bacteria, making it easier to keep everything clean. The toilet lid and cover, if heavily soiled, can easily be removed, cleaned and remounted.

AXENT's compact design means that the shower toilet will fit into just about any household setting. It also hides unsightly plumbing and helps reduce water consumption. Cleverly, it uses about the same amount of water as a modern low-flush toilet, so it is not only kind to the environment, but also helps reduce your water bill.

SMARTER THAN THE SUM OF
ITS PARTS, THE FUTURE OF
TOILETS HAS ARRIVED

CONTROL AT YOUR FINGERTIPS

True icons never set out to be iconic. They just are. This award-winning shower toilet brings style to your bathroom. A single control regulates the position and flow of the shower spray, as well as the water temperature. Located discreetly to the right of the toilet bowl, this control is as easy to use as the crown on a Swiss timepiece.

The AXENT Smart Control app can control any AXENT.ONE shower toilet. Use Bluetooth to connect your mobile device and use it like a remote control.

AXENT.ONE

SOPHISTICATED SIMPLICITY

WASH FUNCTION

A strong but gentle water spray washes you while you are seated on the toilet. The temperature and intensity of the spray can be adjusted easily at the touch of a button.

SELF-CLEANING

AXENT.ONE is equipped with a nozzle that is cleaned automatically with fresh water before and after every use, for a more hygienic experience.

WATER TEMPERATURE

For water temperature adjustment - simply pull out the multifunction knob, turn it and wait for two 'beeps' to sound.

RIMLESS BOWL

The rimless design and stain-resistant surface make the AXENT.ONE easy to clean.

NIGHT LIGHT

The energy saving LED light provides comfortable lighting at night.

AXENT.ONE PLUS

ADDITIONAL COMFORTS

WARM AIR DRYER

Use the remote control to adjust the temperature of the warm air dryer. The resulting gentle airflow across your skin leaves you feeling clean, fresh and dry.

SEAT HEATING

To maximise your comfort as the seasons change, the seat includes adjustable heating that can be set to your individual needs. An integrated sensor detects your presence on the seat and, if set to heat, starts to warm immediately.

DEODORISER

Once the sensor in the shower toilet seat recognises that you are sitting down the automated deodoriser activates. Utilising the latest diatomite filtration technology, the deodoriser neutralises odours rapidly, enhancing your experience and improving your overall wellbeing.

MASSAGE FUNCTIONS

The oscillating shower spray, for rear and feminine wash, provides a thorough, comfortable clean. The gentle spray is pleasant and soothing, and you can easily adjust its position and temperature.

AXENT.ONE

AXENT FAQs

INTRODUCING AXENT

What is Axent?

It is a toilet system that cleans you with a gentle spray of warm water while you use it.

What are the benefits?

Cleaning with water after using the toilet is more hygienic and softer on your skin than paper. Reducing the amount of paper waste is good for the environment too. The lady wash function provides specific feminine hygiene benefits.

AXENT HYGEINE AND HEALTH BENEFITS

Why should I clean myself with water?

We spend a lot of time showering and bathing. It is a natural part of our lives. We can remain fresh throughout the day if we clean ourselves with water after using the bathroom.

Can anyone use Axent?

Yes, AXENTONE is suitable for general use by most people. It may also benefit those who have skin conditions as it provides a thorough and gentle clean.

THE TECHNOLOGY BEHIND AXENT

How long will it take to install?

A qualified fitter can install the AXENTONE in approximately one hour, provided that there are no structural modifications.

Is installing Axent a big investment?

The installation costs do not differ significantly from the cost of installing a conventional toilet.

Waldorf
by crosswater[®]

A TRULY EVOCATIVE COLLECTION

Classic in its inspiration, Waldorf is a truly evocative bathroom collection. Combining exquisite craftsmanship with early twentieth-century styling, each Waldorf piece has been expertly designed to represent the ultimate in bathroom luxury.

Evoking a timeless feel, elegant curves are blended seamlessly with the era's signature angles to offer a superlative range of bathroom furniture, brassware and ceramics. Beautiful finishes are combined with exquisite detailing to create Waldorf's signature style that caters perfectly to advocates of traditional design.

TRADITIONAL DESIGN & STYLING

A beautifully classic collection that exudes traditional design and time-honoured styling, Waldorf blends angular lines with elegant softened edges, resulting in a wonderfully distinctive look that will stand the test of time in any bathing space.

Presented in a refined choice of classic gloss white, or dramatic piano black finishes, the collection's vanity and furniture units are perfectly set with fine detailing such as exquisite bevelled edges, and a choice of classic round or bow drawer handles. Coordinating beautifully with the selection of Waldorf high-shine chrome brassware, the collection is complemented alongside a selection of mirrors and bathroom accessories, all sympathetically curated in the style and essence of the 20s era.

Luxury

SHOWER HEADS

There is nothing more luxurious than a drenching shower to revitalise and refresh. If you have a penchant for minimal aesthetics or lean more towards the extravagant, Vanguard offers a curated selection of premium shower heads to inspire you. All are intuitively designed to ensure a superior showering experience with each and every use.

Our innovative range of chromatherapy shower heads will transform everyday routines into an immersive experience. Featuring integrated, low-consumption LED lights, users can opt for multiple colours or a stunning rotational spectrum to create an in-shower light show that is designed to both sooth and uplift. What's more, the entire colour rainbow of the Vanguard illuminated designs can be controlled by a handy waterproof remote.

Colour options

RIO SPECTRUM

Rio Spectrum is a brand new ultra thin shower head that provides a spectrum of stunning colour effects with 96 LED lights, programmed by a keypad. The low consumption LED lamps create a column of water and light with a diameter of 400mm that operates perfectly with 3-bar pressure.

Rio Spectrum shower head with light and ceiling arm
FHX740C £4499.00

Ø400 x h 152mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Manufactured to order, non returnable/refundable.

Colour options

RIO REVIVE

Illuminate your shower with a choice of green, red or purple lights to achieve a spectacular visual effect. The low consumption LED lamps create a truly magnificent column of water and light. Ultra thin, it can be seamlessly recessed into the ceiling to provide the ultimate showering experience.

Rio Revive shower head with lights and double waterfall feature
FHX610C £4399.00

w 600 x d 400mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations.

REMOTE CONTROL

The waterproof remote control features a chromotherapy system with a choice of seven colours and colour rotation. If you'd like to position the remote control on the wall, a supportive hook is supplied to safely house the control. Batteries are supplied as standard.

FHX700C

FHX700C is the brand new ultra thin chromotherapy shower head guaranteed to illuminate your showering experience and bring bathrooms into the 21st century with a pop of colour. The stunning design also allows you to switch between its waterfall and rainfall shower functions, which can also be operated simultaneously.

Rectangular chromotherapy temptation
FHX700C £5199.00

w 380 x d 700mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Manufactured to order, non returnable/refundable.

REMOTE CONTROL

With nine coloured LEDs, the waterproof remote control allows you to transition through cool and warm colour cycles using the redetermined settings. Subtle back lighting appears when the remote is in function and a supportive wall hook is supplied for safe positioning on the wall.

FHX380C

Turn daily shower routines into the ultimate spa experience with our luxury chromotherapy shower heads. With a choice of green, blue, purple or white LEDs, the spectacular rain function has lights in all four corners to light up bathrooms with a magnificent visual effect.

Square chromotherapy temptation
FHX380C £4199.00

w 380 x d 380mm

*Products with lights requiring mains power must be installed by an electrical engineer in compliance with IEE wiring regulations. Manufactured to order, non returnable/refundable.

REMOTE CONTROL

Offering four colours and colour rotation, we supply a waterproof remote control to make showering in style even easier. You can also safely store your remote on the wall with the supplied supportive hook. Batteries are supplied as standard.

TERMS & CONDITIONS

PRICES

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

DELIVERY

Orders in excess of £5000 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £5000 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

RETURNED GOODS

Requests to return goods must be made in writing to Returns. Department@crosswater.co.uk and include the product details, purchase order number and reason for return. Requests for items that are damaged externally or missing items must be received within 30 days.

Requests for items not required with packaging in pristine condition must be received within 45 days and will be subject to a 12.5% re-stocking charge.

Requests for items not required with packaging in poor conditions must be received within 45 days and will be subject to a 12.5% re-stocking charge and an additional 12.5% re-packing charge. Requests for items that have internal product damage must be received within 30 days.

Special orders are non returnable. Collection will only be made from point of delivery.

Damaged will not be collected once they have been sent to a third party.

RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

LIABILITY

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

PRODUCT COMPATIBILITY

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

When installing wall mounted products Crosswater strongly recommend making provisions for any in-wall access points, particularly when tiling, for maintenance purposes. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

WATER PRESSURE (recommendations)

LP minimum 0.2 bar
HP1 minimum 1 bar
HP2 minimum 2 bar

All products marked LP (Low pressure) are also suitable for HP (High pressure) systems.

- 2

wo

Thermostatic shower valve that offers two independent functions from a single valve.
- 3

wo

Thermostatic shower valve that offers three independent functions from a single valve.

GENERAL

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated.

It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

INSTALLATION NOTES

When installing a wall hung pan or wash basin please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own Crosswater does not supply any fixings. We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance.

All furniture ranges incorporate a factory fitted hanging system that allows safe and simple installation. Please ensure the correct wall fittings are used on solid or stud walls. Some furniture products are reversible for left or right hand door opening.

All shower door and bath screens incorporate a width adjustment feature offering between 15mm and 60mm width allowance to cope with out of true walls, ensuring that they sit squarely on the shower tray. Most products are reversible for left or right hand fitting.

Trays must be plumbed and level, walls should be tiled down to the tray and sealed before doors or frames are fitted. Dimensions are designed for tiled in trays - not unfitted tray sizes. All doors and enclosures must be fitted to a tiled surface, not tiled up to the inside edge of the door. Enclosures must not be completely sealed on the inside, please refer to fitting instructions. Due to the weight of the shower doors you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the enclosure.

Due to the weight of some products you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the product.

SUITES AND CERAMICS

Vitreous China is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings if over tightened will create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures. All products should be inspected before attempting installation.

CLEANING & MAINTENANCE

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth. NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products. Mirrors, cabinets and light fittings: Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products.

PRODUCT GUARANTEE*

All Crosswater products unless otherwise stated carry a 15 year guarantee, shower doors and bath panels a lifetime guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Crosswater must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring.
If the fault is not resolved the goods should be returned to Crosswater and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Crosswater will replace it with our nearest equivalent product.
- This guarantee covers normal use; it does not cover faults caused by incorrect installation, wilful damage, neglect, misuse, modification, inappropriate cleaning, accidental damage and other events outside Crosswater control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Crosswater.
- If a claim is made under this guarantee and the defect is not due to faulty materials or manufacture, Crosswater reserve the right to charge the customer at the current hourly rate in respect of any service engineer time.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.

The guarantee is in addition to and does not affect your statutory rights.

In the interest of continuing design, development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

*With the exception of products detailed with a 5 year guarantee in this brochure, tap and mixer cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses, Cistern fittings, radiator valves and toilet seats which are all guaranteed for 1 year. Crosswater products carry guarantees against manufacturing or component defects as follows:

Sanitary ware, ceramic and cast marble basins 15 years;
Furniture, illuminated mirrors, bathroom cabinets and towel warmers 5 years. Edge bath screen, Supreme Deluxe bath screen and all seals - 12 month guarantee.
35mm shower trays - 5 year guarantee.

Axent Showering toilets - 2 year guarantee

Shower Wastes - 10 year guarantee.

Shower doors and bath screens, excluding display installations.

Glass breaks within 6 months of installation product replaced and costs for refitting are reimbursed by Crosswater.

Glass breaks within 6-24 months of installation product is replaced but no fitting costs reimbursed.

Glass breaks 24+ months of installation a 10% discount against a replacement product.

General wear and tear to any of the above items would be considered a specific exclusion.

For further advice, please contact Crosswater customer helpline: 0345 873 8840
