## Precision Engineering

All Niches are made with high quality 304 stainless steel which provides a protective oxide layer increasing corrosion resistance.

5 pieces of stainless steel are robotically welded ensuring a seamless joint finish that will not leak.

All brushed finishes are PVD (Physical Vapor Deposition) enhancing durability.

Fully insulated with 2mm EVA sound deadening backing to reduce noise transmission.

Compatible with both solid and drywall (stud) installations.

Built in 1% fall on the internal shelf to prevent water pooling.

LED lighting is warm white (3000 Kelvin value).

LED's are rated at IP (Ingress Protection) 66 giving protection from dust and high pressure water jets.
