Shower Enclosures & Trays

The Home of Showering

Over time as bathrooms have evolved into more experiential spaces for relaxation & revitalisation, Crosswater has curated a comprehensive collection of high-quality solutions covering each essential element.

From the beating heart of the shower valve to the outlet that delivers the perfect flow of water to the reassuring glass that envelops you, making you

feel safe and relaxed in your own private personal space. Crosswater has it covered.

This holistic approach covering each element truly makes Crosswater **'The Home of Showering'**.

To help you easily choose your perfect shower enclosure, our products are offered in various thicknesses.

Why Choose Crosswater?

The Home Of Showering

From the beating heart of the shower valve to the outlet that delivers the perfect flow of water to the reassuring glass that envelops you, Crosswater has it covered.

Shower valves

Heads, handsets & jets

Enclosures & trays

This brochure focuses on enclosures, trays and bath screens. Glass panels are offered in various thicknesses in many typologies, different configuration options and numerous sizes to suit almost any bathroom design and budget.

All Crosswater products are supported by a network of over 1000 approved retailers who can be found at www.crosswater.co.uk

Reassuring Performance, Always.

For over 20 years, Crosswater has been recognised as a leading supplier of premium shower enclosures, trays, bath screens and accessories. We employ a combination of trusted manufacturing techniques, high-quality materials and certified finishes to bring you products of the highest possible calibre.

Rest assured, all of our glass panels are manufactured from toughened glass in accordance with BS EN14428.

Complete Peace Of Mind

We're so sure of the quality of our products that we offer an lifetime guarantee on all our shower enclosures, walk-in panels and bath screens.*

Additionally, a dedicated team of showering experts whose knowledge and experience are on hand and ready to help before, during and after your products are installed.

Crosswater Clear Treated Glass

Untreated Glass

The Ultimate Glass Protection

Supplied as standard.

Crosswater Clear is a colourless surface treatment applied to all shower and bath panels. The coating is perfectly flat and invisible and works by creating a surface that helps prevent limescale, soap/shampoo build-up, easier to clean and sparkling glass every day.

Untreated Glass

Untreated glass can quickly and easily suffer permanent bonding of limescale and mineral salts onto its surface, which can cause staining and damage, with water spots being difficult, if not impossible, to remove despite regular cleaning.

Crosswater Clear Treated Glass

Helping to prevent build up and making the glass easier to clean, Crosswater Clear allows soils and liquids to 'slide off' the treated surface which prevents limescale and other dirt from building up to make cleaning a quicker and easier process.

Choosing the Right Shower Enclosure

Choosing the right type of showering enclosure can create a luxurious private space where you will feel protected, comfortable and relaxed in which to enjoy your perfect shower, always.

Crosswater's exciting range of enclosure types can be configured in numerous different ways to suit every bathroom.

Sliding Doors

Great for any size bathroom and a great space saver since the door does not swing out into the room. Sliding doors have two glass panels of which one slides on to open and close.

Easily fitted into an alcove or add side panels to create a corner solution.

Recess

With Side Panel

Hinged Doors

These doors offer the widest entry width, swinging out to open, on some models hinged inwards too. They can easily be fitted to a wall profile or an inline panel depending on the space available.

However, the bathroom has to be large enough. Without enough space, you won't be able to open the door fully.

Recess

With Side Panel

Three Sided Enclosure

With Inline Panel

With Inline and Side Panel

Pivot Doors

Pivot doors have an offset hinge mechanism which allows less of the door to fold into the room.

These doors are great for maximising door opening widths and reducing space required outside the enclosure.

Recess

With Side Panel

With Inline and Side Panel

Quadrant

Quadrant doors are always used in a corner.

Sliding door versions are great for maximising space, a single door sliding quad version offers wider door opening; the hinged door option provides even wider door openings for more spacious bathrooms.

With Single Sliding Door

With Single Hinged Door

With Double Sliding Doors

With Double Hinged Doors

Infold Doors

Infold doors feature an ingenious, smooth cantilever moving action, half of the door folds into the enclosure and half into the room, saving space.

Great in smaller spaces this door type allows a greater opening space to access the enclosure.

Recess

With Side Panel

Bi-fold Doors

Bi-fold doors operate in the way that their name implies. Two glass panels fold in on themselves, thanks to central hinges and smooth-running rollers.

Because they don't swing out into the bathroom, they are excellent in smaller spaces with or without a side panel.

Recess

With Side Panel

Pentagon

Pentagon doors are also used when the shower is located in the corner. They provide good in shower standing space with the advantage of using less space in the room than a quadrant option.

Pentagon

Corner Entry

Great for smaller bathrooms since the doors don't open outward, corner entry enclosures have two doors sliding on rollers to create an easy access opening.

With Sliding
Doors

Choosing the Right Walk In Configuration

Walk-in shower arrangements are the ultimate in showering flexibility and allow you to enter the space more easily whether fitted to a tiled floor or shower tray. Walk-in showers provide stylish and practical showering solutions for all ages and when fitted with a level floor or tray are ideal for users with restricted mobility.

This type of showering solution typically includes one, two or three glass panels. Optional hinged deflector panels will provide even more practicality.

Please see our simple guide below to the most popular configurations and the Crosswater ranges in which you can accomplish them.

NEW

CLEAR 6

Introducing the latest click and lock quick-fit installation system.

Dramatically reducing install time this patent protected* design is further enhanced by sleek modern profiles in Matt or Silver anodised aluminium.

Upgraded premium hardware often only featured in more expensive shower doors, and a wide selection of door styles and sizes makes Clear 6 the ideal shower range for any bathroom application.

KAI 6

Unrivalled engineering, design and outstanding value for money are the underlying characteristics of KAI 6.

Gently contoured silver anodised aluminium profiles with 6mm toughened glass offer plenty of adjustment for out of square walls.

A broad choice of door opening styles and sizes make KAI 6 ideal for smaller bathrooms where form and function are of equal importance.

STRONG HEART. AMAZING SHOWER.

At the heart of Crosswater's amazing showering experience is CROSSBOX. Like any healthy heart, it's quiet, reassuringly strong and clever.

A single universal easy-fit box offers 1, 2 or 3 water outlet options to create your perfect shower experience, and with multiple trim sets, you can create a wide range of different looks.

For more details see our Brassware brochure

Choosing the Right Shower Tray

Once you have decided on the shower enclosure type to create your personal space, you will need to select a matching shower tray unless you are creating a wet room environment.

The critical elements to consider are the height of the tray, the materials used and the position of the waste.

Height & Material

In most situations, consumers are looking to achieve the most minimal look in the bathroom and therefore gravitate towards our low profile 25mm trays. These low profile trays can be fitted onto concrete and wooden floors or recessed to create a level access solution.

All Crosswater 25mm trays are crafted from 100% natural stone resin with a very strong and durable protective gel coat which carries a Lifetime Guarantee.

If a stone resin alternative to our 25mm trays at a more competitive price point along with the Lifetime Guarantee is required, Crosswater offers a range of acrylic capped stone resin trays in a thicker 45mm profile.

Waste Position

Depending on the range selected, the consumer has the option to choose from three waste positions.

Central

A central waste position offers the most direct route for the water to flow from the tray, and its flush design prevents an uncomfortable standing position for the user.

Linear

This option provides all the benefits of a central waste offering the cleanest lines and most minimal user experience.

Edge

This option moves the waste away from the standing area of the tray for a more comfortable user experience.

Available on 25mm Kai, 25mm Kai Anti Slip and 45mm trays.

All 25mm Crosswater trays include a high flow VORTEX waste which removes the water instantly, ensuring the user is never standing in a pool of water at the base of the enclosure.

Beneath the flush-fitting waste cover lies a hidden water capture channel.

This advanced technology ensures any water travels directly through the waste without the need for a build up of pressure, thus ensuring there is never water pooling on the tray.

Choosing the Right Bath Screen

Very often, the only solution to creating a shower space in the home is over a bath. There is no need to compromise on practicality over good looks, Crosswater bath screens allow you to have a relaxing soak in the bath and the opportunity to have a refreshing shower.

A shower bath screen can be fixed to the wall or connected to the wall using a hinge mechanism, and they come in a variety of shapes and sizes.

Single Panel

Single panel bath screens are the simplest design. Fixed, or swinging in, out or sometimes both they allow freedom when bathing or for easier cleaning.

Make sure you choose the right length to suit your bath and available space.

Single Panel

Single Hinged Panel

Single with Inline Panel

Bath Guard

Double Panel

Double panel bath screens typically offer wider coverage width, but given the hinge placement, they fold into a smaller space protruding less into the bathroom space.

Double panels allow you to create a virtual shower cubicle over the bath for a great all-round solution.

Double Panel

Double Panel Fully Folding

Triple Panel

Triple panel bath screens typically offer an even wider coverage width than double but two hinges allow a compact fold to reduce protrusion into the bathroom space.

Triple Panel

Four Panel

Fully folding bath screen options typically utilise four hinges to allow a wide coverage width to fold into the most compact configuration maximising space in the bathroom.

Four Panel Fully Folding

Product Guidelines

Product Compatibility

While the majority of Crosswater products are compatible, please take care when selecting products before ordering to avoid installation issues.

Trays must be plumbed and level, walls should be tiled down to the tray and sealed before doors or frames are fitted.

Dimensions are designed for tiled in trays, not unfitted tray sizes.

All doors and enclosures must be fitted to a tiled surface, not tiled up to the inside edge of the door.

Enclosures must not be completely sealed on the inside.

Due to the weight of the shower doors, you must ensure that the walls to which they are fixed are of suitable construction to support the enclosure.

Cleaning

To maintain the look and performance of your Crosswater shower enclosure, you should:

- Remove any residual water after every use.
- Wipe clean the frame and glass elements with a soft, non-abrasive, colourfast cloth after every use.
- Never use an abrasive cloth or scouring pad which could damage the product.
- Clean the glass gently with warm soapy water and never use any aggressive fluids or strong household cleaning agents which could damage the product.
- Not allow limescale to build-up on any element, particularly in harder water areas.

Quality

All Crosswater showering products are CE marked and are manufactured to the following standards:

- BS EN 14428 for shower enclosures.
- BS EN 14527 for shower trays.

Clear 6 Patents

To provide the very best performing and safest shower doors using the latest materials technology several European patents have been approved for Clear 6. Details of these if required can be applied for by calling our technical department on 0345 873 8840.

Lifetime Guarantee

The Crosswater Lifetime guarantee is subject to online registration and represents the perceived lifetime of the product, which is 25yrs.

To register and activate your guarantee or for full details of all Crosswater guarantees, please visit www.crosswater.co.uk or call 0345 873 8840.

Crosswater guarantees do not affect your statutory rights.

For further advice, please our customer helpline on **0345 873 8840** or visit **www.crosswater.co.uk**

Find a local bathroom specialist at www.crosswater.co.uk

Expertise, design & aftercare

Specialist bathroom retailers can offer expert assistance with your bathroom design, providing full 3D plans to help you visualise and create your own perfect bathroom space. Once your bathroom is installed, they can offer a personal point of contact for any after sales support you may need, delivering complete peace of mind.

Experience the products

The purchase process is an emotional one. Specialist showrooms allow you to touch and feel a wide variety of bathroom products in relaxed surroundings while gaining inspiration from knowledgeable professionals who will explain the benefits of each product and make recommendations that match your personal preferences.
